The American Novel After Ideology, 1961–2000 Jun 20 2020 Claims of ideology's end are, on the one hand, performative denials of ideology's inability to end; while, on the other hand, paradoxically, they also reiterate an idea that 'ending' is simply what all ideologies eventually do. Situating her work around

the intersecting publications of Daniel Bell's The End of Ideology (1960) and J.D. Salinger's Franny and Zooey (1961), Laurie Rodrigues argues that American novels express this paradox through nuanced applications of non-realist strategies, distorting realism in manners similar to ideology's distortions of reality, history, and belief. Reflecting the astonishing cultural variety of this period, The American Novel After Ideology, 1961 - 2000 examines Franny and Zooey, Carlene Hatcher Polite's The Flagellants (1967), Leslie Marmon Silko's Almanac of the Dead (1991), and Philip Roth's The Human Stain (2001) alongside the various discussions around ideology with which they intersect. Each novel's plotless narratives, dissolving subjectivities, and cultural codes organize the texts' peculiar relations to the post-ideological age, suggesting an aesthetic return of the repressed.

Revelation Feb 21 2023 The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self.

*1 Corinthians (Baker Exegetical Commentary on the
New Testament) Apr 11 2022 Paul's first letter to the
Corinthians is one of the most important epistles in
the New Testament. David Garland's thoughtful new
commentary draws on extensive research and engages
the best of contemporary scholarship while providing
a readable study that will be accessible to thoughtful
readers as well as students, pastors, and scholars.
After considering the context of the letter and the
social and cultural setting of Corinth, Garland turns to
his exegetical work. An introduction to each major unit
of thought is followed by the author's own translation
of the Greek text. In the course of his verse-by-verse
commentary, he incorporates references to other
ancient writings that help explain particular aspects of
Paul's meaning or provide information on the social
and cultural context. He also refers to the work of
other commentators and provides extensive notes for
further reading and research.*

The Acts of the Apostles Mar 18 2020 Acts is the sequel to Luke's gospel and tells the story of Jesus's followers during the 30 years after his death. It describes how the 12 apostles, formerly Jesus's disciples, spread the message of Christianity throughout the Mediterranean against a background of persecution. With an introduction by P.D. James

The New Woman in Print and Pictures Jan 28 2021 Although feminist women have existed throughout history, the term "New Woman" wasn't officially coined until 1894, when British novelists began to address the concept of the New Woman through discussions of female suffrage, dress reform, women's advances toward more legal rights, birth control, sexual freedom, and women working outside the home. This annotated bibliography includes original novels and articles printed from 1894 to 1944, the era most closely associated with the New Woman. It includes all period novels with a New Woman protagonist and all period articles with the New Woman as primary subject, along with several poems, cartoons, advertisements, and artworks. The

bibliography also includes critical literature published worldwide from the 1960s to 2008 that examines the primary material included in the first section. Because the New Woman was the target of many derisive articles, poems, and visual works, these critical response pieces are included.

History and Theology Mar 10 2022 This long-standing series provides the guild of religion scholars a venue for publishing aimed primarily at colleagues. It includes scholarly monographs, revised dissertations, Festschriften, conference papers, and translations of ancient and medieval documents. Works cover the sub-disciplines of biblical studies, history of Christianity, history of religion, theology, and ethics. Festschriften for Karl Barth, Donald W. Dayton, James Luther Mays, Margaret R. Miles, and Walter Wink are among the seventy-five volumes that have been published.

Contributors include: C. K. Barrett, Francois Bovon, Paul S. Chung, Marie-Helene Davies, Frederick Herzog, Ben F. Meyer, Pamela Ann Moeller, Rudolf Pesch, D. Z. Phillips, Rudolf Schnackenburgm Eduard Schweizer, John Vissers

*Commentary on Colossians and Philemon
(Commentary on the New Testament Book #12) Sep
16 2022 Delve Deeper into God's Word In this verse-by-
verse commentary, Robert Gundry offers a fresh,
literal translation and a reliable exposition of
Scripture for today's readers. Paul's letter to the
church at Colossae exhorts his addressees to behave
in ways appropriate to Christ's person and work, while
his letter to Philemon is a plea for the newly converted
slave, Onesimus. Pastors, Sunday school teachers,
small group leaders, and laypeople will welcome
Gundry's nontechnical explanations and clarifications.
And Bible students at all levels will appreciate his
sparkling interpretations. This selection is from
Gundry's Commentary on the New Testament.*

The Fourth Industrial Revolution Nov 13 2019 The founder and executive chairman of the World Economic Forum on how the impending technological revolution will change our lives We are on the brink of the Fourth Industrial Revolution. And this one will be unlike any other in human history. Characterized by new technologies fusing the physical, digital and

biological worlds, the Fourth Industrial Revolution will impact all disciplines, economies and industries - and it will do so at an unprecedented rate. World Economic Forum data predicts that by 2025 we will see: commercial use of nanomaterials 200 times stronger than steel and a million times thinner than human hair; the first transplant of a 3D-printed liver; 10% of all cars on US roads being driverless; and much more besides. In The Fourth Industrial Revolution, Schwab outlines the key technologies driving this revolution, discusses the major impacts on governments, businesses, civil society and individuals, and offers bold ideas for what can be done to shape a better future for all.
