A Nation In Waiting Feb 27 2021 In *A Nation in Waiting*, Adam Schwarz spans a wide variety of issues of concern in today's Indonesia, providing a detailed view of one of the world's most populous, yet least-understood, nations. He chronicles the major economic and political changes recorded during former President Suharto's thirty-one-year tenure,

and the present economic and political crisis. In this fully updated second edition, Schwarz analyzes the impact of Suharto's resignation on the political, economic, and social life of Indonesia.

From Subjects to Citizens May 21 2020 This book analyses the processes by which conservative and introverted Balinese villagers have been

incorporated into the Indonesian nation-state. *Politics and the Media in Twenty-First Century Indonesia* Aug 04 2021 Every political aspirant and activist knows the media are important. But there is little agreement on how an increasingly diversified media operate in post-authoritarian transitions and how they might promote, or

impede, the pathways to a sustainable liberal democracy in the 21st century. This book examines the role of the media during Indonesia's longest experiment with democratisation. It addresses two important and related questions: how is the media being transformed, both in terms of its structure and content, by the changing political economy of Indonesia after the fall of Suharto? And what is the potential impact of this media in enabling or hampering the development of democracy in Indonesia? The book explores the relation between the working of

democratisation, by examining the role of ethnic identity and nationalism; increasingly cheaper and diversified means of media production, challenging state monopolies of the media; the reality of personalised and globalised media; and the challenging of the connection between a free media and democracy by global capitalism and corporate control of the media. The book argues that the dominant forces transforming Indonesia today did not arise from the singular point of Suharto's resignation, but from a set of factors which are independent from, but linked to,

Indonesia's internal politics and which shape its cultural industries. *(Un) Civil Society and Political Change in Indonesia* Feb 10 2022 (Un) Civil Society and Political Change in Indonesia provides critical analysis of Indonesia's civil society and its impact on the country's democratization efforts that does not only take the classical, pro-democratic actors of civil society into account but also portrays uncivil groups and their growing influence on political processes. Beittinger-Lee offers a revised categorization of civil society, including a model

to define the sphere of 'uncivil society' more closely and to identify several subcategories of uncivil society. This is the first book to portrays various uncivil groups in Indonesia, ranging from vigilantes, militias, paramilitaries, youth groups, civil security task forces and militant Islamic (and other religious) groups, ethnonationalist groups to terrorist organizations and groups belonging to organized crime. Moreover, it provides the reader with an overview of Indonesia's history, its political developments after the democratic opening, main improvements under the various presidents since

Suharto's fall, constitutional amendments and key reforms in human rights legislation. This book will be of interest to upper level undergraduates, postgraduates and academics in political science and Southeast Asian studies.

Reorganising Power in Indonesia Apr 12 2022 A new and distinctive analysis of the dramatic fall of Soeharto, the last of the great Cold-War capitalist dictators, and of the struggles that reshape the institutions and systems of power and wealth in Indonesia.

The Technological State in Indonesia

Mar 11 2022 Using a historical sociology approach, this book illustrates the formation of the technological state in Indonesia during the New Order period (1966-1998). It explores the nexus between power, high technology, development, and authoritarianism situated in the Southeast Asian context. The book discusses how the New Order regime shifted from the developmental state to the technological state, which was characterized by desire for technological supremacy. The process resulted in the establishment of a host of technological institutions and the undertaking of

large-scale high-tech programs. Shedding light on the political dimension of socio-technological transformation, this book looks at the relationship between authoritarian politics and high technology development, and examines how effectively technology serves to sustain legitimacy of an authoritarian power. It explores into multiple features of the Indonesian technological state, covering the ideology of development, the politics of technocracy, the institutional structure, and the material and symbolic

embodiments of high technology, and goes on to discuss the impact of globalization on the technological state. The book is an important contribution to studies on Southeast Asian Politics, Development, and Science, Technology, and Society (STS). **Behind the Postcolonial** Oct 14 2019 In *Behind the Postcolonial* Abidin Kusno shows how colonial representations have been revived and rearticulated in postcolonial Indonesia. The book shows how architecture and urban space can be seen, both historically and theoretically, as representations of

political and cultural tendencies that characterize an emerging as well as a declining social order. It addresses the complex interactions between public memories of the present and past, between images of global urban cultures and the concrete historical meanings of the local. It shows how one might write a political history of postcolonial architecture and urban space that recognizes the political cultures of the present without neglecting the importance of the colonial past. In the process, it poses serious questions for the analysis and understanding of postcolonial states. *The Politics of*

Protection Rackets in Post-New Order Indonesia Jul 03 2021 Gangs and militias have been a persistent feature of social and political life in Indonesia. During the authoritarian New Order regime they constituted part of a vast network of sub-contracted coercion and social control on behalf of the state. Indonesia's subsequent democratisation has seen gangs adapt to and take advantage of the changed political context. New types of populist street based organisations have emerged that combine predatory rent-seeking with claims of representing marginalised social and economic

groups. Based on extensive fieldwork in Jakarta this book provides a comprehensive analysis of the changing relationship between gangs, militias and political power and authority in post-New Order Indonesia. It argues that gangs and militias have manufactured various types of legitimacy in consolidating localised territorial monopolies and protection economies. As mediators between the informal politics of the street and the world of formal politics they have become often influential brokers in Indonesia's decentralised electoral

democracy. More than mere criminal extortion, it is argued that the protection racket as a social relation of coercion and domination remains a salient feature of Indonesia's post-authoritarian political landscape. This groundbreaking study will be of interest to students and scholars of Indonesian and Southeast Asian politics, political violence, gangs and urban politics. [The Army and Ideology in Indonesia](#) Apr 19 2020 This book is an analysis of Indonesia's civil-military relations in the post-1998 reform era. It focuses on the political thinking of the Indonesian

Army during the time of democratic consolidation. The book examines the army (Tentara Nasional Indonesia Angkatan Darat, TNI AD), a pivotal player in the political scene of Indonesian state, and the aspect of military ideology development. Based on in-depth interviews with civilian and military figures and applying the methodology of utilised process tracing and empirical analysis surrounding the appearance of military thinking, the book argues that the Indonesian military pursues to sustain its political power by propagating a set of values construed as moral compass for

all members of society. Specifically, the book discusses the origins and impacts of 'proxy war' and 'bela negara' ('defend the state'), which was promoted by former TNI Commander Gatot Nurmantyo (2015-2017) and former Defence Minister Ryamizard Ryacudu (2014-2019). The authors demonstrate that both ideologies facilitate expansion of the military's influence in all aspects of life and protection of its corporate interests in the age of democracy. Offering insights for theoretical discussion on the influence of military ideology to civil-military relations,

particularly in the post-authoritarian period, this book will be of interest to academics and policy makers in the fields of Southeast Asian Politics, Asian Politics and Civil-Military Relations. **Indonesia and China** Jan 09 2022 Indonesia broke off relations with China in 1967 and resumed them only in 1990. Rizal Sukma asks why. His answers shed light on Indonesia's foreign policy, the nature of the New Order's domestic politics, the mixed functions of diplomatic ties, the legitimacy of the new regime, and the role of President Suharto. Rizal Sukma argues that the matter of Indonesia restoring diplomatic ties with

China is best understood in terms of the efforts made by the military-based New Order government to sustain its political legitimacy. The analysis in this book proves that an absence as well as a presence of diplomatic relations may advance not only the external but the domestic interests of an incumbent government. This is the first major study on Indonesia and China's diplomatic relations under the New Order government. It will be illuminating for research students and lecturers in international politics, international relations, policy making and

diplomacy
Transnational Islamic Actors and Indonesia's Foreign Policy Dec 16 2019
The past fifteen years have seen Indonesia move away from authoritarianism to a thriving yet imperfect democracy. During this time, the archipelago attracted international attention as the most-populated Muslim-majority country in the world. As religious issues and actors have been increasingly taken into account in the analysis and conduct of international relations, particularly since the 9/11 events, Indonesia's leaders have adapted to

this new context. Taking a socio-historical perspective, this book examines the growing role of transnational Islamic Non-State Actors (NSAs) in post-authoritarian Indonesia and how it has affected the making of Indonesia's foreign policy since the country embarked on the democratization process in 1998. It returns to the origins of the relationship between Islamic organisations and the Indonesian institutions in order to explain the current interactions between transnational Islamic actors and the country's official foreign policies. The book

considers for the first time the interactions between the "parallel diplomacy" undertaken by Indonesia's Islamic NSAs and the country's official foreign policy narrative and actions. It explains the adaptation of the state's responses, and investigates the outcomes of those responses on the country's international identity. Combining field-collected data and a theoretical reflexion, it offers a distanced analysis which deepens theoretical approaches on transnational religious actors. Providing original research in Asian Studies, while filling an empirical

gap in international relations theory, this book will be of interest to scholars of Indonesian Studies, Islamic Studies, International Relations and Asian Politics.

Civil-Military Relations in Indonesia May 13 2022 This book examines military operations other than war (MOOTW) of the Indonesian military in the post-Suharto period and argues that the twin development of democratic consolidation, marked by 'stable' civil-military relations from 2004 to 2014 under Susilo Bambang Yudhoyono's presidency, and internationalization of the military have not yet entirely de-

politicized the armed forces. This book shows how peacekeeping, humanitarian assistance and disaster relief, and counter-terror missions have been reinvented by the Indonesian military (Tentara Nasional Indonesia, TNI) to adhere to its politico-institutional interests rather than to divert military attention from politics. In contrast with conventional arguments about the rationale of MOOTW in promoting military professionalism, this book provides the first critical analysis of the development of these missions and correlates them with TNI's concerted effort to

preserve territorial command structure – a military network that parallels the civilian bureaucracy down to the village level. The book argues that the military in Indonesia remains domestically political amidst high intensity of international activism. A detailed investigation of civil-military relations in Indonesia, this book will be of interest to scholars in the fields of Southeast Asian studies and Asian politics, and more generally to those interested in civil-military relations, military politics, and MOOTW.

Party Politics and Democratization in Indonesia Nov 19 2022 Party

Politics and Democratization in Indonesia: Golkar in the Post-Suharto Era provides the first in-depth analysis of contemporary Indonesian party politics and the first systematic explanation why Golkar is still the strongest party in Indonesia. Applying a multi-dimensional conceptual framework of party institutionalization theory, the book examines Golkar's organizational infrastructure, its decisional autonomy and programmatic platform as well as the party's relations to the mass media. Strengths and weaknesses in the individual dimensions of institutionalization

are then contrasted with the corresponding levels of institutionalization reached by Indonesia's other major parties. Tomsa argues that Golkar remains Indonesia's strongest party because it is better institutionalized than its electoral competitors. However, while highlighting the former regime party's strengths in key aspects of party institutionalization, he also shows that Golkar also has some considerable institutional weaknesses which in 2004 prevented the party from achieving an even better result in the general election As an empirical study on Golkar, and

Indonesia's other major political parties, this book will be of huge interest to students and scholars of Southeast Asian politics, political parties and elections and democratization. *Regionalism in Post-Suharto Indonesia* Jan 21 2023 This book examines issues connected with decentralization and regional autonomy in Indonesia, including particular autonomy movements, the attempts by forces at the centre to resist decentralization, and the impact of decentralization. **Gender, Islam and Democracy in Indonesia** Dec 28 2020 This book

explores the relationship between gender, religion and political action in Indonesia, examining the patterns of gender orders that have prevailed in recent history, and demonstrating the different forms of social power this has afforded to women. It sets out the part played by women in the nationalist movement, and the role of the women's movement in the structuring of the independent Indonesian state, the politics of the immediate post-independence period and the transition to the authoritarian New Order. It analyses in detail the gender relations of the

New Order regime, focused around the unitary family form supposed by the family system expounded in the New Order ideology and the contradictory implications of the opening up of the economy to foreign capital and ideas, for gender relations. It examines the forms of political activism that were possible for the women's movement under the New Order, and the role it played in the fall of Suharto and the transition to democracy. The relationship between Islam and women in Indonesia is also addressed, with particular focus on the way in which Islam became a critical focus for political

dissent in the late New Order period. Overall, this book provides a thorough investigation of the relationship between gender, religion and democracy in Indonesia, and is a vital resource for students of gender studies and Indonesian affairs.

Military Politics and Democratization in Indonesia

Oct

06 2021 This book looks at the role of the Indonesian military in the downfall of Suharto and their ongoing influence on the succeeding governments of B.J. Habibie and Abdurrahman Wahid.

Politics and Governance in Indonesia

Sep 17 2022 How does an authoritarian state reform its police force following a transition to democracy? In 1998, Indonesia, the third largest country in the world, faced just such a challenge. Policing had long been managed under the jurisdiction of the military, as an instrument of the Suharto regime - and with Suharto

abruptly removed from office, this was about to change. Here we see how it changed, and how far these changes were for the better. Based on direct observations by a scholar who was involved in the last days of the New Order and who saw how the police responded to regime change, this book examines the police, the new regime, and how the police was disassociated from the military in Indonesia. Providing a comprehensive historical overview of the position of police in this change of regime, the book focuses on two key areas: the differences between local and national

levels, and the politicisation associated with decentralisation. Arguing that the disassociation of the Indonesian National Police from the military has achieved only limited success, the book contends that there is continued impetus for the establishment of a professional police force and modern and democratic policing, which will entail effective public control of the police. A pioneering study of the police in Indonesia, examining key issues in the post-Suharto era, this book will be of interest to scholars of Southeast Asian politics and of policing and politics in the developing world.

Indonesian politics under Suharto Mar 19 2020

Indonesia Beyond Suharto Dec 20 2022 This text presents an accessible introduction to the most significant problems facing Indonesia and raises issues for further investigations. It addresses such questions as: how has Indonesia managed to remain one country?; and is there a truly national Indonesian culture?

Indonesian Politics Under Suharto Feb 22 2023 This revised third edition provides an analysis of Suharto's New Order from its inception to the emergence of B.J.

Habibie as President. The author reassesses the New Order's origins and its military roots and evaluates the considerable economic changes that have taken place since the 1960s. He examines Suharto's politics and, in a new chapter, the reasons behind the crisis and Suharto's fall.

Popular Culture in Indonesia Aug 24 2020 This book examines popular culture in Indonesia, the world's most populous Muslim nation, and the third largest democracy. It provides a full account of the key trends since the collapse of the authoritarian

Suharto regime (1998), a time of great change in Indonesian society more generally. It explains how one of the most significant results of the deepening industrialization in Southeast Asia since the 1980s has been the expansion of consumption and new forms of media, and that Indonesia is a prime example of this development. It goes on to show that although the Asian economic crisis in 1997 had immediate and negative impacts on incumbent governments, as well as the socioeconomic life for most people in the region, at the same time popular cultures have been dramatically

reinvigorated as never before. It includes analysis of important themes, including political activism and citizenship, gender, class, age and ethnicity. Throughout, it shows how the multilayered and contradictory processes of identity formation in Indonesia are inextricably linked to popular culture. This is one of the first books on Indonesia's media and popular culture in English. It is a significant addition to the literature on Asian popular culture, and will be of interest to anyone who is interested in new developments in media and popular culture in Indonesia and Asia.

Routledge Handbook of Contemporary Indonesia Oct 26 2020 Few countries as culturally rich, politically pivotal, and naturally beautiful as Indonesia are as often misrepresented in global media and conversation. Stretching 3,400 miles east to west along the equator, Indonesia is the fourth most populous country in the world and home to more than four hundred ethnic groups and several major world religions. This sprawling Southeast Asian nation is also the world's most populous Muslim-majority country and the third largest democracy.

Although in recent years the country has experienced serious challenges with regard to religious harmony, its trillion-dollar economy is booming and its press and public sphere are among the most vibrant in Asia. A land of cultural contrasts, contests, and contradictions, this ever-evolving country is today rising to even greater global prominence, even as it redefines the terms of its national, religious, and civic identity. The Routledge Handbook of Contemporary Indonesia offers an overview of the modern making and contemporary dynamics of culture, society,

and politics in this powerful Asian nation. It provides a comprehensive survey of key issues in Indonesian politics, economics, religion, and society. It is divided into six sections, organized as follows: Cultural Legacies and Political Junctures Contemporary Politics and Plurality Markets and Economic Cultures Muslims and Religious Plurality Gender and Sexuality Indonesia in an Age of Multiple Globalizations Bringing together original contributions by leading scholars of Indonesia in law, political science, history, anthropology, sociology, religious

studies, and gender studies this Handbook provides an up-to-date, interdisciplinary, and academically rigorous exploration of Indonesia. It will be of interest to students, academics, policymakers, and others in search of reliable information on Indonesian politics, economics, religion, and society in an accessible format.

Political Change and Territoriality

in Indonesia Dec 08 2021 What makes large, multi-ethnic states hang together? At a time when ethnic and religious conflict has gained global prominence, the territorial organization of states is a critical

area of study. Exploring how multi-ethnic and geographically dispersed states grapple with questions of territorial administration and change, this book argues that territorial change is a result of ongoing negotiations between states and societies where mutual and overlapping interests can often emerge. It focuses on the changing dynamics of central-local relations in Indonesia. Since the fall of Suharto's New Order government, new provinces have been sprouting up throughout the Indonesian archipelago. After decades of stability,

this sudden change in Indonesia's territorial structure is puzzling. The author analyses this "provincial proliferation", which is driven by multilevel alliances across different territorial administrative levels, or territorial coalitions. He demonstrates that national level institutional changes including decentralization and democratization explain the timing of the phenomenon. Variations also occur based on historical, cultural, and political contexts at the regional level. The concept of territorial coalitions challenges the dichotomy between centre and

periphery that is common in other studies of central-local relations. This book will be of interest to scholars in the fields of comparative politics, political geography, history and Asian and Southeast Asian politics. *Indonesian Politics Under Suharto* Sep 05 2021 After 25 years in power, President Raden Suharto and his New Order government confront a crisis of renewal. The regime, which swept to power in the wake of a military putsch in 1966, has brought stability and economic prosperity to the country, but has shown no inclination to pass

the reins of power to the next generation. As a result, pressures for political change are building up. *Power Politics and the Indonesian Military* Jul 23 2020 Throughout the postwar history of Indonesia, the military have played a key role in the politics of the country and in imposing unity on a fragmentary state. The collapse of the authoritarian New Order government of President Suharto weakened the state and the armed forces briefly lost their grip on control of the archipelago. However, under President Megawati, the military has again begun to assert itself, and re-

impose its heavy hand on control of the state, most notably in the fracturing outer provinces. Based on extensive original research, this book examines the role of the military in Indonesian politics. It looks at the role of the military historically, examines the different ways it is involved in politics, and considers how the role of the military might develop in what is still an uncertain future.

Southeast Asia Jan 29 2021 *Southeast Asia: A Testament* covers the tragic history of post war Indonesia from its successful struggle against the Dutch to Suharto's bloody overthrow of Sukarno in 1965. It

also gives a personal account of the US involvement in Indochina, where George Kahin was an early critic of the Vietnam war and struggled to open the eyes of policy makers to the historical, political and military realities of the Vietnamese situation. Kahin also witnessed the reluctant involvement of Cambodia in the conflict, and the 1970 coup against Prince Sihanouk which paved the way for the Communist accession to power. This book will be of interest to students of American diplomatic and foreign policy, Asian studies, and international relations. It is an

engagingly written, often poignant personal account of George Kahin's experiences in Southeast Asia, and as such will also appeal to the general reader.

Violent Conflicts

in Indonesia Jun 02 2021 Indonesia is currently affected by many serious conflicts which have arisen as a result of a variety of ethnic, religious and regional tensions.

Presenting important new thinking on violent conflict in the world's largest Muslim-majority nation, this book examines a selection of conflicts in detail and discusses the nature of violence and the reasons behind violent

outbreaks.

Chapters include analysis of conflicts in Aceh, East Timor, Maluku, Java, West Kalimantan, West Papua and elsewhere. The contributors provide analysis of political, ethnic and nationalistic killings, with a concentration on the post-Suharto era. The book goes on to examine vital questions concerning the way in which violence in Indonesia is represented in the media, and explores ways in which violent conflicts could be resolved or prevented. The last section turns the focus onto victims of violence and forms of justice and retribution.

Illiberal Democracy

in Indonesia Jun 14 2022 *Illiberal Democracy* in Indonesia charts the origins and development of organicist ideologies in Indonesia from the early 20th century to the present. In doing so, it provides a background to the theories and ideology that informed organicist thought, traces key themes in Indonesian history, examines the Soeharto regime and his 'New Order' in detail, and looks at contemporary Indonesia to question the possibility of past ideologies making a resurgence in the country. Beginning with an exploration of the origins of the theory of the organic state in

Europe, this book explores how this influenced many young Indonesian scholars and 'secular' nationalists. It also looks in detail at the case of Japan, and identifies the parallels between the process by which Japanese and Indonesian nationalist scholars drew on European romantic organicist ideas to forge 'anti-Western' national identities and ideologies. The book then turns to Indonesia's tumultuous history from the revolution to 1965, the rise of Soeharto, and how his regime used organicist ideology, together with law and terror, to shape the political landscape consolidate control.

In turn, it shows how the social and economic changes wrought by the government's policies, such as the rise of a cosmopolitan middle class and a rapidly growing urban proletariat led to the failure of the corporatist political infrastructure and the eventual collapse of the New Order in 1998. Finally, the epilogue surveys the post Soeharto years to 2014, and how growing disquiet about the inability of the government to contain religious intolerance, violence and corruption, has led to an increased readiness to re-embrace not only more authoritarian

styles of rule but also ideological formulas from the past. This book will be welcomed by students and scholars of Southeast Asia, politics and political theory, as well as by those interested in authoritarian regimes, democracy and human rights. *The Routledge Handbook of Civil-military Relations* Jan 17 2020 The Routledge Handbook of Civil-Military Relations not only fills this important lacuna, but offers an up-to-date comparative analysis which identifies three essential components in civil-military relations: (1) democratic civilian control; (2) operational effectiveness; and

(3) the efficiency of the security institutions. This Handbook will be essential reading for students and practitioners in the fields of civil-military relations.

question whether Indonesia still deserves its famous label as a 'model Muslim democracy', the book argues that the most serious threats to Indonesian democracy emanate from the fading appeal of democracy as a compelling narrative, the increasingly brazen capture of democratic institutions by predatory interests, and the narrowing public space for those who seek to defend the values of democracy. In so doing, the book answers the following key questions: What are the dominant political narratives that underpin Indonesian politics? How has

Indonesia's institutional framework evolved since the onset of democratisation in 1998? How do competing political interests weaken or strengthen Indonesian democracy? How does declining democracy affect Indonesia's prospects for dealing with its main policy challenges? How does Indonesia compare to other Muslim-majority states and to its regional neighbours? Up-to-date, comprehensive, and written in an accessible style, this book will be of interest for both students and scholars of Indonesian politics, Asian Studies,

Indonesian Politics and Society Mar 31 2021 Using an exhaustive selection of primary sources, this book presents a rich and textured picture of Indonesian politics and society from 1965 to the dramatic changes which have taken place in recent years. Providing a complete portrait of the Indonesian political landscape, this authoritative reader is an essential resource in understanding the history and contradictions of the New Order, current social and political conditions and the road ahead.
The Politics of NGOs in Indonesia

Oct 18 2022 This book deals with two major issues: how Indonesian NGOs survived under Suharto's authoritarian rule; and how NGOs contributed to the promotion of democracy in the post-Suharto era. If NGOs are to change from 'development' to 'movement' in democratic post-Suharto Indonesia, they must adjust not only their management and working style, but also their very ideology. This comprehensive study will be an important book for scholars interested in Asian studies, Indonesian politics and development studies.
Rethinking Power Relations in Indonesia Feb 16

2020 Since colonial rule, the island of Java served as Indonesia's imagined centre and prime example of development, while the Outer Islands were constructed as the state's marginalised periphery. Recent processes of democratisation and regional autonomy, however, have significantly changed the power relations that once produced the marginality of the Outer Islands. This book explores processes of political, economic and cultural transformations in Indonesia, emphasizing their implications for centre-periphery relations from the perspective of the archipelago's

'margins'. Structured along three central themes, the book first provides theoretical contributions to the understanding of marginality in Indonesia. The second part focuses on political transformation processes and their implications for the Outer Islands. The third section investigates the dynamics caused by economic changes on Indonesia's periphery. Chapters written by experts in the field offer examples from various regions, which demonstrate how power relations between centre and periphery are getting challenged, contested and reshaped. The book

fills a gap in the literature by analysing the implications of the recent transformation processes for the construction of marginality on Indonesia's Outer Islands. Chinese Indonesians Reassessed Nov 07 2021 "Shows how the Chinese minority is much more diverse, and the picture much richer and more complicated, than previous studies have allowed. Subjects covered include the historical development of Chinese communities in peripheral areas of Indonesia, the religious practices of Chinese Indonesians, which

are by no means confined to "Chinese" religions, and Chinese ethnic events, where a wide range of Indonesians, not just Chinese, participate"-- Provided by publisher. Power and Knowledge in Southeast Asia Jun 21 2020 Examining two state-sponsored history writing projects in Indonesia and the Philippines in the 1970s, this book illuminates the contents and contexts of the two projects and, more importantly, provides a nuanced characterization of the relationship between embodiments of power (state, dictators, government

officials) and knowledge (intellectuals, historians, history). Known respectively as Sejarah Nasional Indonesia (SNI) and the Tadhana project, these projects were initiated by the Suharto and Marcos authoritarian regimes against the backdrop of rising and competing nationalisms, as well as the regimes' efforts at political consolidation. The dialectics between actors and the politico-academic contexts determine whether scholarship and politics would clash, mutually support, or co-exist parallel with one another. Rather than one side manipulating or co-

opting the other, this study shows the mutual need or partnership between scholars and political actors in these projects. This book proposes the need to embrace rather than deny or transcend the entwined power/knowledge if the idea is for scholarship to realize its truly progressive visions. Analyzing the dynamics of state-scholar relations in the two countries, the book will be of interest to academics in the fields on Southeast Asian history and politics, nationalism, historiography, intellectual history, postcolonial studies, cultural studies, and the

sociology of knowledge. *Democratization in Post-Suharto Indonesia* Jul 15 2022 In May 1998 the fall of Suharto marked the beginning of a difficult and multi-layered transition process. It was accompanied by intensified conflict in the political arena, a dramatic increase of ethnic and religious violence and the danger of national disintegration. Ten years after the collapse of the New Order, Indonesia has made significant progress, however the quality of democracy is still low. Theoretically innovative and empirically sound, this book is an in-depth analysis of

the Indonesian reform process since 1998. Marco Bünte and Andreas Ufen bring together a selection of noted Indonesia experts to provide new insights into the restructuring of core state institutions, the empowerment of Parliament, the slow and difficult evolution of the rule of law, and the transfer of power to locally elected regional governments (decentralization). Based on the results of extensive fieldwork, Democratization in Post-Suharto Indonesia will be an important read for scholars engaged in research on Indonesia and the politics of Southeast Asia.
