The Assassination of JFK, 9/11, the Da Vinci Code, The Death of Diana, Men in Black, Pearl Harbor, The Illuminati, Protocols of Zion, Hess, The Bilderberg Group, New World Order, Elvis Fluoridization, Martin Luther King's murder, Opus Dei, The Gemstone Files, John Paul I, Dead Sea Scrolls, Lockerbie bombing, Black helicopters... In other words everything 'they' never wanted you to know and were afraid you might ask! Jon E. Lewis explores the 100 most terrifying cover-ups of all time, from the invention of Jesus' divinity (pace the Da Vinci Code) to Bush's and Blair's real agenda in invading Iraq. Entertainingly written and closely documented, the book provides each cover-up with a plausibility rating. Uncover why the Titanic sank, ponder the sinister Vatican/Mafia network that plotted the assassination of liberal John Paul, find out why NASA 'lost' its files on Mars, read why no-one enters Area 51, and consider why medical supplies were already on site at Edgware Road before the 7/7 bombs detonated. Just because you are paranoid, it doesn't mean that they aren't out to conspire against you. Was Princess Diana, arguably the most famous woman of the modern age, really murdered or was her death a tragic accident? "I found it difficult simply to accept that what happened in Paris was 'just one of those tragic things' and has it happened, the jury at the inquest agreed." - Michael Mansfield QC In deciding which models to choose for inclusion in this book selected from Fiat's huge inventory, the author concentrated on three criteria - greatness, size and emotion. Where size is an easy parameter to qualify, greatness is more complicated because it is a combination of of both the manufacturer's and the public's opinion. A car that is highly regarded by the public may not have been a commercial success and vice versa. A truly great car is one that works well for both parties. Emotion may be considered to be an element of greatness in that the public's 'love' for a car is a fantastic benefit for a manufacturer and must be treasured. Fiat have made the mistake of 'improving' an icon on several occasions only to find that public opinion went against them. Fortunately Fiat has been magnanimous enough to respond by giving the car buying public more of what it wants. As long as they continue to do so then Fiat's reputation as the world's greatest small car manufacturer is set to continue. The author chose the Topolino as the starting point as the car fulfils all the criteria and it was the first Fiat built in the late 1930s to satisfy the Italian public's new-found desire for mobilisation. The old conventions of car production were turned upside down with the arrival of the 600 which revolutionised car production techniques and maximised on passenger space and performance at minimal cost. These principals continued via a succession of models which include the 500, 850, 126, 127 through to more recent models like the Cinquecento and Seicento. Running in parallel with these 'cheeky' Fiats, this book covers a range of slightly larger cars that were built in huge numbers. Though rather staid in

appearance, the 1950s Millecento was family transport for millions of Italians covering three decades, four when the Indian-built cars are included. Similarly the 128, Panda and Uno were 'the' Italian small cars of the '70s, '80s and '90s. Nuova Panda carries the banner to the present day. "Possibly they died in the hands of British MI-5 Intelligent agents who have been spying on them", said Glyn Jones, a former British Intelligent agent who had been recruited from Special Air Service (SAS) - British elite air-force— as he was giving comments on the death of Diana and Dodi Al-Fayed. (Indonesian magazine, Gatra, October 11, 1997), quoted from the German tabloid (Dos Neue). Having been tracing the route of Paul's blood sample, which was examined by the judges in France, Al-Fayed concluded that such the blood sample was not Paul's; it had been changed in order to cover the murder. Then he uttered: "What happened to Diana and my son was nothing but a murder, and I won't just keep silent until I get the truth." (Indonesian Newspaper, Republika, September 1, 2000). According to Thomas, the target of MOSSAD actually was not Dodi and Diana. MOSSAD has never interested in these couple. What they need was "the informer", a person who gives them information on the illegal weapon traders that sell weapons to Israel's enemies. For that reason, MOSSAD dropped its field agent Maurice, who was well known as "an excellent manipulator". (Indonesian tabloid, Aura, No.31/Year IV, 1st Week, September 2000). Although Al-Fayed had to accept the verdict stated by the State Court in London, he still believes that Diana and his son died due to the conspiracy. The verdict itself was based on the conclusions of a group of jury- eleven of them-, and it was read by the judge Scott Baker. It says that the death of Diana and Dodi was merely a traffic accident caused by the drunken driver. Gisele Paul, a mother of Dodi's driver and simultaneously his body guard, Henry Paul, who was accused of being drunk when driving, agreed with Al-Fayed. She is much convinced that her son died due to the complicated high-rank conspiracy. "The truth will never be revealed", she said desperately. (Indonesian magazine Gatra, No. 23, Year XIV, April 17-23, 2008). Will this case be over just like that? Absolutely not!! This novel will deeply analyze all the questions coming up due to the above statements. An Indonesian senior literary man, Taufiq Ismail, whose great name is much known by Indonesian nation, commented as follows: "His logical plots were very smart and able to lead us to believe that the scenario of the murder of Princess Diana wouldn't be quite different from this "semi-fiction" story composed by Indra Adil." - Pustaka Al-Kautsar Publisher - Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better. Princess Diana, late 1996 It is a moment that remains frozen in history. When the Mercedes carrying Diana, Princess of Wales, spun fatally out of control in the Pont de l'Alma tunnel in Paris in August 1997, the world was shocked by what appeared to be a terrible accident. But two decades later, the circumstances surrounding what really happened that night—and, crucially, why it happened—remain mired in suspicion, controversy, and misinformation. Until now. Dylan Howard has re-examined all of the evidence surrounding Diana's death—official documents, eyewitness testimony and Diana's own private journals—as well as amassing dozens of new interviews with investigators, witnesses, and those closest to the princess to ask one very simple question: Was the death of Princess Diana a tragedy...or treason? Diana: Case Solved has uncovered in unprecedented detail just how much of a threat Diana became to the establishment. In these pages you will learn of the covert diaries and recordings she made, logging the Windsors' most intimate secrets and hidden scandals as a desperate kind of insurance policy. You will learn how the royals were not the only powerful enemies she made, as her ground-breaking campaigns against AIDS and landmines drew admiration from the public, but also enmity from powerful establishment figures including international arms dealers, the British and American governments, and the MI6 and the CIA. And, in a dramatic return to the Parisian streets where she met her fate, the two questions that have plagued investigators for over twenty years will finally be answered: Why was Diana being driven in a car previously written off as a death trap? And who was really behind the wheel of the mysterious white Fiat at the scene of the crash? This mammoth book brings together some of the modern world's most head-scratching deaths and disappearances, from the murder of rap royalty Tupac Shakur to Princess Diana's car crash in Paris, via the poisoning of former Russian spy Alexander Litvinenko and JFK's assassination. Is it possible that prisoners of war remain left behind in Vietnam? Could the most famous musician in the world stage his own death and recede into an ordinary life? Investigating these questions and more, this book is an A-Z of unsolved mysteries, cover-ups, conspiracies and bizarre crimes, bringing together famous names as disparate as Tupac, Elvis, Dr David Kelly, Malcolm X and Wolfgang Amadeus Mozart. This book is an authentic historical document, supported by extensive analytical information, in which former Fiat top manager Giorgio Garuzzo passionately recounts his experience within Fiat between 1976 and 1996. It is a narrative from the inside that sheds new light on events that have remained cloaked in mystery: the arrival and departure of Carlo De Benedetti, the "march of the forty thousand", the sacking of Vittorio Ghidella, the clashes between Umberto Agnelli and Cesare Romiti, the Group's involvement in the "clean hands" scandal, the role of Gianni Agnelli and his relationships with his brother and Cesare Romiti and the intervention of Mediobanca. Garuzzo discusses the issues connected with the range of cars and marques, touching on major themes of national or international relevance that were unrelated to Fiat but nonetheless conditioned its activities: terrorism and the unmanageability of the factories, inflation, the devaluation of the lira, the role of the trade unions and the General Confederation of Italian Industry, Japanese competition and European integration. Was Diana murdered? Was the British Royal family involved? Was she pregnant and engaged to Dodi? Did the paparazzi or 'a blinding white flash' cause the crash? Was driver Henri Paul really drunk or were his blood tests switched? Since Princess Diana died in Paris on 31 August 1997 there have been more questions than answers about the crash that killed her, despite lengthy official French and British investigations. This is the authoritative and up-to-date study into the death of Diana, Princess of Wales, which includes unique access to Diana's close friends and bodyguards, French and British detectives who probed the crash, and the official French investigation's dossier into the crash. The Untold Story exposes high level corruption in the 21st century British justice system. It reveals how judicial corruption led to a seriously flawed verdict at the inquest into the deaths of Princess Diana and Dodi Fayed. It provides a thorough record of the key evidence that was heard by the inquest jury and details the 143 important witnesses who were not heard from during the inquest. The book reveals the critical relevance of the evidence from the original police statements that the jury were prevented from having access to. This untold story destroys the perception that the inquest achieved justice for the deceased occupants of the crashed Mercedes. It clearly outlines the methods employed by the royal coroner to continually manipulate the jury throughout the six months of the inquest. This is the gripping, true account of a judiciary hell-bent on ensuring that the jury would not be permitted to return a verdict of murder in the most significant and high profile inquest of our modern era. Cover Up is an in-depth exposé of the botched investigations of five major tragic events of the twentieth century: the death of Princess Diana and Dodi Al Fayed, the death of Pope John Paul I, the death of US politician Ron Brown, the loss of the 101st Airborne, and the assassination of Rwandan President Habyarimana. Author Damien Comerford dives headlong into the stories, bringing to light intriguing details about events leading up to each tragedy and then challenging the methods employed in each investigation. In this book, he shows that while the people in authority appeared to be conducting investigations and leaving no stone unturned, in reality, nothing could be further from the truth. Experts had no real interest in turning over every clue, and Comerford reveals the places where investigators went wrong, from overlooked forensic details and ignored eyewitness reports to facts too coincident to be accidents. An experienced journalist, Comerford uses his considerable talent to dig deep into historical records and expertly reconstruct each event exactly as it occurred. The result is a compelling read that will leave even the most stalwart skeptic believing in the truth of cover-ups.
