***The first book to help organizations understand and harness the extraordinary workplace learning potential of social media
Cowritten by the CEO of the world's largest workplace learning organization and a consultant and writer with extensive experience on the forefront of workplace learning technology
Features case studies showing how organizations around the world have transformed their businesses through social media
Most business books on social media have focused on using it as a marketing tool. Many employers see it as simply a workplace distraction. But social media has the potential to revolutionize workplace learning. People have always learned best from one another -- social media enables this to happen unrestricted by physical location and in extraordinarily creative ways. The New Social Learning is the most authoritative guide available to leveraging these powerful new technologies. Tony Bingham and Marcia Conner explain why social media is the ideal solution to some of the most pressing educational challenges organizations face today, such as a widely dispersed workforce and striking differences in learning styles, particularly across generations. They definitively answer common objections to using social media as a training tool and show how to win over even the most***

resistant employees. Then, using examples from a wide range of organizations -- including Deloitte, IBM, TELUS, and others -- Bingham and Conner help readers sort through the dizzying array of technological options available and decide when and how to use each one to achieve key strategic goals. Social media technologies -- everything from 140-character "microsharing" messages to media-rich online communities to complete virtual environments and more -- enable people to connect, collaborate, and innovate on levels never before dreamed of. They make learning dramatically more dynamic, stimulating, enjoyable, and effective. This greatly anticipated book helps organizations create a contemporary learning strategy that is as timely as it is transformative. My Colour-Coded Life is an autobiography of one brave woman's life weighed down with mental illness. Using a pseudonym and changed names for legal reasons, the author shares her fascinating experiences. The story begins with her distrust of her husband in 2000, and in 2005, her diagnosis of schizoaffective disorder. Along the way, we learn of her battle with colours and the messages she took from them—and also from food, TV, radio, music, newspapers, her guitar music, missing things, other people's clothes, and even products on the shelves. Once trust was gained in Music, she grips onto inspirational lyrics to pull her out of the quagmire she found herself sinking into. In searing honesty, she shares her triggers and offers insight on what she knows about her relapses. In the beginning, she feared colours, but over time they empowered her, made her feel blessed and able to take control of her life. My Colour-Coded Life offers readers the chance to walk in the shoes of someone who's suffered greatly. Ideally, it will educate neurotypical readers and destigmatize mental illness along the way. Co - authored by ASTD President and CEO Tony Bingham, and long - time workplace educator and Fast Company business writer Marcia Conner, this book shows readers how social media can help trainers and workers increase their

knowledge, innovate faster than their competitors, and enjoy themselves in a way that increases their commitment to their employer and to the customers they ultimately serve. How Canadians Communicate, Vol. 1 is a timely collection that chronicles the extraordinary changes that are shaking the foundations of Canada's cultural and communications industries in the twenty-first century. With essays from some of Canada's foremost media scholars, this book discusses the major trends and developments that have taken place in government policy, corporate strategies, creative communities, and various communication mediums: newspapers, films, cellular and palm technology, the Internet, libraries, TV, music, and book publishing. This volume addresses many issues unique to Canada in a broader framework of global communications. Specifically, it looks at new media communications in Aboriginal communities, the changing role of the state in cultural institutions, the conglomeratization of the media, the threat of American and global communications to Canadian voices, and the struggle to retain and reclaim local and

national identities in the face of globalization. With articles from academics and professionals across Canada, How Canadians Communicate, Vol.1 provides the most current perspectives on communication in Canada in a rapidly changing world of technology and global communication. Covering the latest trends and technology changes, this is the fully updated and revised bestselling guide to telecommunications for the nontechnical professional. Includes sections on convergence, globalization, speech recognition, and 3G cellular networks. The first and only guide to using MVT as a breakthrough management tool MVT(TM) (Multivariable Testing) has been heralded as a breakthrough business tool in major publications such as Forbes, the Wall Street Journal, The Economist, and Business-Week. Although MVT could become one of the most widely used management tools and has been applied by leading companies in every industry to create billions of dollars of value-no book on it has been published, until now. In Breakthrough Business Results with MVT, MVT creator and guru Charles Holland shows managers how multivariable testing-an advanced mathematical method that allows simultaneous testing of up to 40 variables-can dramatically improve efficiency and profits in any organization. MVT reveals to managers precisely which factors have a positive impact on any important business decision or process, which have a negative impact, and which have no impact at all. Very often the results are radically counterintuitive. MVT identifies quickly the best ways for a company to make major improvements, such as boosting sales, reducing waste, increasing production, enhancing advertising strategies, or optimizing service levels. Faster and cheaper than other quality improvement methodologies such as Six Sigma, MVT is a natural tool for any organization that wants to reduce the amount of guesswork and politics when making crucial business decisions. In Breakthrough Business Results with MVT, Holland reveals the dramatic benefits that have made true believers of top executives in such companies as Lowe's, Ameritech, Williams-Sonoma, DuPont, Pacific Bell, and Boise, among others. Charles Holland, PhD (Knoxville, TN), is principal and founder of QualPro,

Inc., the leading MVT consultancy in the world. QualPro's work has been celebrated in most major business publications, and they have consulted to senior executives at many Fortune 500 companies. QualPro regularly conducts seminars on MVT, and their work has been widely publicized. *MVT is a trademark of QualPro, Inc.
