How often have we wondered about the jaunty tilt of a mountain at the unusual patterns of a road cutting, the colour and texture of the roadside soil, or the purpose of a distant minehead? This handy volume offers answers and explanations about features along all the major routes across South Africa, and some of the lesser, but geologically interesting, routes too. Also included are the three main metropolitan areas - Johannesburg, Cape Town and Durban - so that city residents can see the world of social work of 40 years or so ago. Illustrated by the professional practice of one Colin Millwood, an enthusiastic but otherwise green social worker, it coincides with the early beginnings of his arrival at his local Social Services Department.
