Born in England, Frances Hodgson Burnett emigrated to Knoxville, Tennessee with her family at the age of 16. Faced with financial hardship,

she began to write fiction and non-fiction pieces as a means of making money. Eventually, she emerged as a popular writer of children's literature, penning such classics as *The Secret Garden*, *A Little Princess*, and *Little Lord Fauntleroy*. "Lodusky," a short story set in the American South, will please fans of Burnett's work. This manual provides information on routine maintenance and servicing, with tasks described and photographed in a step-by-step sequence so that even a novice can do the work. In the 50s & 60s Coventry Climax engines powered many race-winning cars, including some driven by Stirling Moss & Jack Brabham. To get the true inside story, the author, an engineer, has talked to all surviving Coventry Climax personnel who were involved with the racing engines. The author was given full access to all of Walter Hassan's papers, photographs and engine drawings. After 30 months of original research and writing, this book describes exactly how these famous engines developed from industrial fire pumps to the Hillman Imp, from Le Mans winning Lotus Elites to Formula One winners driven by Stirling Moss and Jack Brabham, right through to the company's takeover by Jaguar in 1963. Viewed through the eyes of an engineer, and the detailed recollections of those who were there, this is a fascinating account of the trials and tribulations of leading edge race engine design from 1952 to 1966. This book explores the theoretical foundations of gamification in learning and education. It has become increasingly difficult to engage and motivate students. Gamification not only makes learning interesting, but also allows game players to solve problems and learn lessons through repeated attempts and failures. This "positive failure" can motivate students to attempt a difficult mission. Chapters in this volume cover topics such as the definition and characteristics of gamification, gamification in learning and education, theories, research on gamification, framework, strategy, and cases. The book is the fruit of hands-on experience gained in the workshop as well as knowledge gleaned over years of consulting books, manufacturers' manuals and specialist magazines by one of the leading technical journalists in the sector, Massimo Clarke. It is intended as an easy-to-read guide with clear, precise contents regarding the restoration of classic bikes, with attention being focused not on pre-war models but those from the 1960s and '70s, those on which we still work most frequently today. All aspects of restoration are dealt with special reference to mechanical work on the engines and the chassis components, those which enthusiasts can do themselves in their own garages, using tools that are easy to find at reasonable costs. The book is enhanced by an in-depth examination of the reassembly of the crankcase and two chapters dedicated to the final drive and the spark plugs. A guide of fundamental importance for those who want to "get their hands dirty" around their classic bikes. A service and repair manual for the Land Rover series II, IIA & III. Hatchback & Corsavan. This book is the first English-language study of motorsport and Italian Fascism, arguing that a synergy existed between motor racing and Fascism that did not exist with other sports. Motorsport was able to bring together the two dominant, and often opposed, cultural roots of Fascism, the Futurism of F. T. Marinetti, and the Decadence associated with Gabriele D'Annunzio. The book traces this cultural convergence through a topical study of motorsport in the 1920s and 1930s placing it in the context of the history of sport under Mussolini's regime. Chapters discuss the centrality of speed and death in Fascist culture, the attempt to transform Rome into a motorsport capital, the architectural and

ideological function of the Monza and Tripoli and autodromes, and two chapters on the importance of the Mille Miglia, a genuine Fascist artefact that became one of the most legendary motor races of all time.
