It's about Skiing and Not the Skis Aug 21 2020 People have been skiing—and no doubt teaching others to do the same—for thousands of years. The earliest evidence for it is a picture on the wall of a cave in Norway that was drawn sometime around 4500 BC. Skiing is something that we do. It is a behavior. Teaching others to ski is also something that we do. It, too, is a behavior. Pavlov and his dog helped to demonstrate that behavior is lawful and orderly. Various forms of conditioning as well as reinforcement, generalization, discrimination, punishment, and extinction change behavior. But why do

we ski and teach others to do the same? These behaviors can also be accounted for, but no one has done it—until now. Develop a better understanding of why we ski and become a better skier or ski instructor in the process. You'll gain a greater appreciation of the sport once you discover *It's About Skiing and Not the Skis*. **Night Drives** Jan 18 2023 *Night Drives* is a collection of poetry and writing that makes you feel like you're on a night drive.. the kind with the windows down, music up, and the night sky above you. The kind that slowly opens you up, allowing you to feel all of the emotions you've been holding in for so long and somehow

helps you feel alive again. The kind that helps you appreciate the night sky again.

Designed by Adventure Apr 28 2021 Thirty years ago a frustrated physicist from Seattle named Ron Gregg was retreating from an aborted attempt at a new alpine style route on Denali. His partner had been evacuated by helicopter, but Ron chose to ski back to the highway solo. In the process, Ron found a new direction in life. At that time, outdoor gear left much to be desired. Many of the best climbers and alpinists designed their own equipment out of necessity. They fashioned climbing harnesses, backpacks and entire kits in basements and garages. Nobody cared what the gear looked like. For a mountaineer with a penchant

for design, the 70s and 80s were an era of extreme entrepreneurial opportunity and epic adventure. Designed by Adventure: 30 Years of Outdoor Research follows Ron Gregg's seminal early years as he bootstraps what would become an iconic company known for relentless commitment to functionality and durability. His intense passion for making better products in his own factory establishes Outdoor Research as an outdoor industry leader, yet Ron's devotion to his Seattle factory eventually imperils the company as globalization changes the game. His sudden and tragic death in the mountains of

British Columbia creates a crisis as his family and the management team struggle to find a solution to keep the company going. Ultimately a new team comes together to build on Ron's legacy and principles, building Outdoor Research into one of the fastest growing companies in its industry.
