Effective College Learning Aug 24 2020 This is an innovative, highly visual academic success textbook founded on contemporary research in learning theory. The Effective College Learning authors do more than prepare readers for academic success: They prepare them for lifelong learning. Readers not only learn how we learn, but why we learn, and they're shown how to be active in their learning. The stunning design keeps the reader engaged through the generous use of visuals and a " chunked " design that makes locating key information easy. 013386412X / 9780133864120 Effective College Learning Plus NEW MyStudentSuccessLab -- Access Card Package, 2/e Package consists of: 0205750133 / 9780205750139 Effective College Learning, 2/e 0321943252 / 9780321943255 NEW MyStudentSuccessLab -- Value Pack Access Card

P.O.W.E.R. Learning: Foundations of Student Success Nov 19 2022 P.O.W.E.R. Learning is the only research-based student success series with a unifying system for critical thinking and problem solving. P.O.W.E.R. Learning: Foundations of Student Success utilizes this P.O.W.E.R. framework to maximize students' potential for success in college and life addressing the diverse, 2-year student population by providing direct, practical solutions to the challenges that students face as they navigate college and prepare for their careers. Using the scientifically-based, yet simple and class-tested principles of the P.O.W.E.R. (Prepare, Organize, Work, Evaluate, and Rethink) system, students gain a sense of mastery and achievement as they move through the text; with the growth of their confidence comes the increased intellectual enthusiasm and personal discipline needed for them to excel.

Teaching and Learning with Technology Apr 19 2020 Teaching and Learning with Technology Fourth edition continues to offer a foundation in learning theory and instructional design that helps position educational technology within the framework of teaching and learning. The text explores current and emerging technologies available to teachers. Using practical applications, examples from the classroom, and an array of reflection activities, the text offers students the opportunity to fully explore and apply technologies as tools to enhance teaching and learning. New Chapter 4 on diversity highlights technologies for special education students, ESL students, gifted, as well as diverse learning styles. The Fourth edition's new Chapter 14 New Technologies focuses on emerging technologies relevant to today's educators. Faculty will find a full range of in-text activities including reviews, group, critical thinking, and hands-on experiences as well as marginal references to the robust MyEducationLab website.

REVEL FOR LISTEN TO THIS -- AC Oct 14 2019 Listen to the music. Hear the elements. Connect your playlist. Revel(TM) Listen to This is designed to connect students' interest in the music on their own playlists with great music from throughout history and all over the world. It is based on the idea that all music is built on a combination of a few basic elements -- melody, dynamics, rhythm, harmony, texture, timbre, form, and word-music relationships -- and if students listen for those elements they can better understand how a piece of music works, no matter how unfamiliar it may seem at first. This elements-centered approach provides a strong foundation for learning about, and enjoying, many new musical styles. The Fourth Edition includes expanded coverage of timbre as well as new chapters on additional musical works. Revel is Pearson's newest way of delivering our respected content. Psychology Revel Access Card Jun 02 2021 The most learner-centered and assessment-driven brief text available Throughout Revel(TM) Psychology: An Exploration , 4th Edition, Saundra Ciccarelli and J. Noland White employ a learner-centered, assessment-driven approach that maximizes student engagement, and helps educators keep students on track. In this brief text, the authors draw students into the discipline by showing how psychology relates to their own lives. Clear learning objectives, based on the recommended APA undergraduate learning outcomes, guide students

through the material. And assessment tied to these learning objectives lets students check their understanding, while allowing instructors to monitor class progress and intervene when necessary to bolster student performance. Introduction to Operations Research with Access Card for Premium Content Aug 04 2021 For over four decades, Introduction to Operations Research has been the classic text on operations research. While building on the classic strengths of the text, the author continues to find new ways to make the text current and relevant to students. One way is by incorporating a wealth of state-of-the-art, user-friendly software and more coverage of business applications than ever before. The hallmark features of this edition include new section and chapters, updated problems, clear and comprehensive coverage of fundamentals, an extensive set of interesting problems and cases, and state-of-the-practice operations research software used in conjunction with examples from the text. McGraw-Hill's Connect, is also available as an optional, add on item. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, how they need it, so that class time is more effective. Connect allows the professor to assign homework, quizzes, and tests easily and automatically grades and records the scores of the student's work. Problems are randomized to prevent sharing of answers and may also have a "multi-step solution" which helps move the students' learning along if they experience difficulty.

National Geographic Learning Reader: Green Nov 07 2021 GREEN is a part of a ground-breaking new series, the National Geographic Learning Reader Series. This series brings learning to life by featuring compelling images, media and text from National Geographic. Through this engaging content, students develop a clearer understanding of the world around them. Published in a variety of subject areas, the National Geographic Learning Reader Series connects key topics to authentic examples and can be used in conjunction with most standard texts or online materials available for your courses. Access to a media-enhanced eBook is included with each reader. The twelve articles in this single-themed reader are inspired by our changing relationship with the earth, based on an understanding that the planet's resources are finite and that our future depends on preserving them. While the term green signifies a level of awareness about environmental concerns, it is used here in the broadest sense, to draw students' attention to the state of the planet and to promote discourse on how to address the needs of the human population as well as the ecosystems that sustain life in our world. To what extent we see ourselves as members of a global community and to rethink how we will meet the growing needs of our population in the future are the two central questions this collection asks readers to consider critically. Introduction to Teaching Jun 21 2020 Introduction to Teaching: Making a Difference in Student Learning, Second Edition is the ideal text for aspiring teachers. Acclaimed authors Gene Hall, Linda Quinn, and Donna Gollnick thoroughly prepare teacher education candidates to make a difference as teachers, presenting first-hand stories and evidence-based practices while offering a student-centered approach to learning. The authors target one of the biggest challenges facing many of today's schools—making sure that all students are learning—and help teachers make student learning the primary focus in all that they do. From true-to-life challenges that teachers will face (high-stakes testing, student learning assessments, low teacher retention, Common Core Standards) to the inspiration and joy they will discover throughout their teaching careers, this text paints a

realistic picture of the real life of a teacher.
