The Leader in Me Sep 04 2021 Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

Understanding North Korea Jul 22 2020 Why does North Korea want to possess nuclear capabilities? In order to find the answer to this question, we must have an accurate understanding of the history and structure of the North Korean regime. So far, we have only formed conjectures and predictions regarding North Korea based on our own perspectives; we now need to deal with and consider North Korea "as is" to reach viable solutions to the issues North Korea presents. This volume contains analyses of the most salient, critical issues pertinent to understanding the North Korean regime, penned by representative Korean scholars of North Korea. As such, the book examines the historical formation of North Korea, the identities of those power elite, and the relative stability (or instability, as the case may be) of the new regime under Kim Jong-un. Also an important aspect to consider is the possibility of socio-economic change in North Korea. Though North Korea has remained relatively static vis-à-vis its political and military systems, it is in the process of becoming rapidly marketized, having continued various attempts to modify its economic policy. In the social realm, said economic shift has elicited the polarization of the disparate classes and the expansion of individualism. Such social transformations, obscured by the easily visible political reality of North Korea, can provide solid grounds for determining the future of the North Korea regime. Moreover, it is imperative that we accurately understand the motivation behind North Korea's intention to develop nuclear weapons—namely, the expansion of deterrence. We must recognize the reasons for the North Korean hostility toward the United States from the very beginning of the DPRK formation and the North Korean fixation on nuclear weapons development. Further, we need to understand the nature of relations between China and North Korea—relations on which the international community has focused since North Korea began its nuclear testing—as well as the history and structure of relations between North and South Korea. Only when we accurately understand North Korea can we reach solutions to the North Korean nuclear issue. The studies in this volume by Korean scholars will reveal the veiled background of the visible phenomena and thereby help the readers to correctly understand the North Korean behaviors hitherto misunderstood (or even those that were impossible to understand).

The Wave Oct 25 2020 This novel dramatizes an incident that took place in a California school in 1969. A teacher creates an experimental movement in his class to help students understand how people could have followed Hitler. The results are astounding. The highly disciplined group, modeled on the principles of the Hitler Youth, has its own salute, chants, and special ways of acting as a unit and sweeps beyond the class and throughout the school, evolving into a society willing to give up freedom for regimentation and blind obedience to their leader. All will learn a lesson that will never be forgotten.
