

Read Online A League Of Peace A Rectorial Address Delivered To The Students In The University Of St Andrews 17th October Pdf File Free

World Peace Jun 02 2021 For as long as there has been war, there have been demands for its elimination. The quest for world peace has excited and eluded political leaders, philosophers, religious elders, activists, and artists for millennia. With war on the rise once again, we rarely reflect on what world peace might look like; much less on how it might be achieved. World Peace aims to change all that and show that world peace is possible. Because the motives, rationales, and impulses that give rise to war - the quest for survival, enrichment, solidarity, and glory - are now better satisfied through peaceful means, war is an increasingly anachronistic practice, more likely to impoverish and harm us humans than satisfy and protect us. This book shows that we already have many of the institutions and practices needed to make peace possible and sets out an agenda for building world peace. In the immediate term, it shows how steps to strengthen compliance with international law, improve collective action such as international peacekeeping and peacebuilding, better regulate the flow of arms, and hold individuals legally accountable for acts of aggression or atrocity crimes can make our world more peaceful. It also shows how in the long term, building strong and legitimate states that protect the rights and secure the livelihoods of their people, gender equal societies, and protecting the right of individuals to opt-out of wars has the potential to establish and sustain world peace. But it will only happen, if individuals organize to make it happen.

For the Sake of Peace Jan 29 2021 Prominent among the topics addressed are economics, the environment, the power of dialogue, the proper role of religion, the compassionate spirit of the bodhisattva, the importance of culture, the role of the United Nations, disarmament, the sovereignty of the people and the importance of global citizenship."--BOOK JACKET.

The Political and Commercial Importance of Peace. A Lecture, Etc Oct 18 2022

Waging Peace in Vietnam Jul 23 2020 How American soldiers opposed and resisted the war in Vietnam While mainstream narratives of the Vietnam War all but marginalize anti-war activity of soldiers, opposition and resistance from within the three branches of the military made a real difference to the course of America's engagement in Vietnam. By 1968, every major peace march in the United States was led by active duty GIs and Vietnam War veterans. By 1970, thousands of active duty soldiers and marines were marching in protest in US cities. Hundreds of soldiers and marines in Vietnam were refusing to fight; tens of thousands were deserting to Canada, France and Sweden. Eventually the US Armed Forces were no longer able to sustain large-scale offensive operations and ceased to be effective. Yet this history is largely unknown and has been glossed over in much of the written and visual remembrances produced in recent years. *Waging Peace in Vietnam* shows how the GI movement unfolded, from the numerous anti-war coffee houses springing up outside military bases, to the hundreds of GI newspapers giving an independent voice to active soldiers, to the stockade revolts and the strikes and near-mutinies on naval vessels and in the air force. The book presents first-hand accounts, oral histories, and a wealth of underground newspapers, posters, flyers, and photographs documenting the actions of GIs and veterans who took part in the resistance. In addition, the book features fourteen original essays by leading scholars and activists. Notable contributors include Vietnam War scholar and author, Christian Appy, and Mme Nguyen Thi Binh, who played a major role in the Paris Peace Accord. The book originates from the exhibition *Waging Peace*, which has been shown in Vietnam and the University of Notre Dame, and will be touring the eastern United States in conjunction with book launches in Boston, Amherst, and New York.

The Book of Peace May 21 2020 Sixty four tracts, compiled and edited by George C. Beckwith, corresponding secretary of the American Peace Society. Each tract is separately as well as consecutively paged.

The Book Of Peace Apr 19 2020 This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

The Book of Peace Feb 22 2023

Critical Issues in Peace and Conflict Studies Mar 11 2022 *Critical Issues in Peace and Conflict Studies: Theory, Practice, and Pedagogy*, edited by Thomas Matyók, Jessica Senehi, and Sean Byrne, discusses critical issues in the emerging field of Peace and Conflict Studies, and suggests a framework for the future development of the field and the education of its practitioners and academics. Contributors to the book are recognized scholars and practitioners in their respective fields. The authors take an holistic approach to the study, analysis, and resolution of conflict at the micro, meso, macro, and mega levels.

Research for Advancement of Peace Jan 17 2020 Fuller text of a speech delivered at a dinner held on Mount Scopus on July 25, 1968 to mark the occasion of the first meeting of the Board of Trustees of the Harry S Truman Center for the Advancement of Peace.

International Handbook of Peace and Reconciliation Nov 14 2019 How do ordinary people from different regions around the world define peace and reconciliation? What factors do they think are necessary for promoting reconciliation between countries? Do they believe that individuals have a right to protest against war and in favor of peace? Do they believe that apologies can improve the chances of reconciliation? What do they think are the best ways for achieving peace? Does reasoning regarding the achievability of world peace vary by region? *International Handbook of Peace and Reconciliation*, a companion volume to the *International Handbook on War, Torture, and Terrorism*, examines and analyzes how people around the world think about justice, governmental apologies, the right to protest, the peace process, the justifiability of armed conflict, the possibility of world peace, and reconciliation. To address these questions, researchers from the Group on International Perspectives on Governmental Aggression and Peace (GIPGAP) administered the Personal and Institutional Rights to Aggression and Peace Survey (PAIRTAPS) to volunteers from over 40 countries representing the major regions of the world. The volume is organized such that the responses to the survey are summarized and analyzed by both by country and by theme. Integrative chapters provide an up-to-date overview of historical and current events relevant to peace and reconciliation and a grounded theory analysis of definitions of peace and reconciliation and of the role of apology in reconciliation. In addition to describing the major themes emerging from the responses in each region, the volume reports on some exploratory analyses addressing the extent to which we found differences in patterns of responding based on characteristics such as gender, military experience, and involvement in anti-war protest activity. *International Handbook on Peace and Reconciliation* allows ordinary citizens from around the world to voice their views on peace and related issues, and examines the context of these views. Thus, it offers researchers in political science, peace psychology, social psychology, social justice, and anthropology a comprehensive resource for a changing global landscape.

The Peace Book Nov 19 2022 Peace is making new friends. Peace is helping your neighbor. Peace is a growing a garden. Peace is being who you are. The Peace Book delivers positive and hopeful messages of peace in an accessible, child-friendly format featuring Todd Parr's trademark bold, bright colors and silly scenes. Perfect for the youngest readers, this book delivers a timely and timeless message about the importance of friendship, caring, and acceptance.

The Frontlines of Peace Sep 05 2021 At turns surprising, funny, and gut-wrenching, this is the hopeful story of the ordinary yet extraordinary people who have figured out how to build lasting peace in their communities The word "peacebuilding" evokes a story we've all heard over and over: violence breaks out, foreign nations are scandalized, peacekeepers and million-dollar donors come rushing in, warring parties sign a peace agreement and, sadly, within months the situation is back to where it started--sometimes worse. But what strategies have worked to build lasting peace in conflict zones, particularly for ordinary citizens on the ground? And why should other ordinary citizens, thousands of miles away, care? In *The Frontlines of Peace*, Severine Autesserre, award-winning researcher and peacebuilder, examines the well-intentioned but inherently flawed peace industry. With examples drawn from across the globe, she reveals that peace can grow in the most unlikely circumstances. Contrary to what most politicians preach, building peace doesn't require billions in aid or massive international interventions. Real, lasting peace requires giving power to local citizens. *The Frontlines of Peace* tells the stories of the ordinary yet extraordinary individuals and organizations that are confronting violence in their communities effectively. One thing is clear: successful examples of peacebuilding around the world, in countries at war or at peace, have involved innovative grassroots initiatives led by local people, at times supported by foreigners, often employing methods shunned by the international elite. By narrating success stories of this kind, Autesserre shows the radical changes we must take in our approach if we hope to build lasting peace around us--whether we live in Congo, the United States, or elsewhere.

The Media and Peace Mar 31 2021 Much is known about the media's role in conflict, but far less is known about the media's role in peace. Graham Spencer's study addresses this deficiency by providing a comparative analysis of reporting conflicts from around the world and examining media receptiveness to the development of peace. This book establishes an argument for the need to rethink journalistic responsibility in relation to peace and interrogates the consequences of news coverage that emphasizes conflict over peace.

I Am Peace May 13 2022 When the world feels chaotic, find peace within through an accessible mindfulness practice from the bestselling picture-book dream team that brought us I Am Yoga. Express emotions through direct speech. Find empathy through imagination. Connect with the earth. Wonder at the beauty of the natural world. Breathe, taste, smell, touch, and be present. Perfect for the classroom or for bedtime, Susan Verde's gentle, concrete narration and Peter H. Reynolds's expressive watercolor illustrations bring the tenets of mindfulness to a kid-friendly level. Featuring an author's note about the importance of mindfulness and a guided meditation for children, I Am Peace will help readers of all ages feel grounded and restored.

For the Peace from Above Jul 15 2022 Since the early days of the Church, Christians have struggled to come to terms with Christ's words of peace and His example of peace. In Christ's life, as recorded in the New Testament, it is striking that He neither killed anyone nor summoned any of His disciples to kill. Indeed, the final miracle Christ performed before His execution was to heal an enemy's wound, an injury caused by the Apostle Peter in an attempt to defend his master. Yet, in the course of more than twenty centuries of Christian history, we see Christians often involved in war and, in surveying the calendar of saints, find not only those who refused to take part in war but also those who served in the military, though no one has been canonized due to his skill as a soldier. Besides the millions of Christians who have fought in armies, often against fellow Christians, we also find many priests, bishops and theologians who have advocated war and blessed its weapons. Our subject is an urgent one. Many people today live either near conflict areas or are directly touched by war or in areas where terrorist actions may suddenly occur. Everyone on the planet is in some way affected by wars in progress or wars in the making as well as the consequences of wars in the past. Every day thousands of Christians struggle in thought and prayer with some of the most difficult of questions: May I fight injustice by violent methods? Am I allowed to kill in combat? Are there limits on what I can do in the defense of my country?

Am I as a Christian allowed to disobey demands that I believe are unjust or violate the Gospel? When the demands of my country seem at odds with the demands of the Kingdom of God, how do I respond to this conflict? Rarely do we find easy answers to these and similar questions. Thus, those of us in the Orthodox Christian tradition search for help in Holy Scripture, the canons provided to us by ecumenical councils, the witness of the saints, the writing of the Fathers of the Church as well as theologians of recent times. Imitation of saintly forebears alone, however, will not solve our problems. Different eras have adopted different attitudes. Also many of today's problems never existed before, not least the changed character of war in an era of weapons of mass destruction, terrorism and mass propaganda. Yet knowledge of the thought and action undertaken by the Orthodox Churches on the issues of war and peace in recent decades surely can help us find ways out of the dead ends that many communities are experiencing today. This is the aim of this book.

The Language of Peace Jan 21 2023 *The Language of Peace: Communicating to Create Harmony* offers practical insights for educators, students, researchers, peace activists, and all others interested in communication for peace. This book is a perfect text for courses in peace education, communications, media, culture, and other fields. Individuals concerned about violence, war, and peace will find this volume both crucial and informative. This book sheds light on peaceful versus destructive ways we use words, body language, and the language of visual images. Noted author and educator Rebecca L. Oxford guides us to use all these forms of language more positively and effectively, thereby generating greater possibilities for peace. Peace has many dimensions: inner, interpersonal, intergroup, international, intercultural, and ecological. The language of peace helps us resolve conflicts, avoid violence, and reduce bullying, misogyny, war, terrorism, genocide, circus journalism, political deception, cultural misunderstanding, and social and ecological injustice. Peace language, along with positive intention, enables us to find harmony inside ourselves and with people around us, attain greater peace in the wider world, and halt environmental destruction. This insightful book reveals why and how.

Peace and Conflict Studies Research Feb 27 2021 A volume in Peace Education Series Editors Jing Lin, University of Maryland, Edward Brantmeier, James Madison University, and Ian Harris, University of Wisconsin, Milwaukee This edited book is a new and valuable resource for students, teachers, and practitioners, providing a detailed exploration of how qualitative research can be applied in the field of peace and conflict studies. This book explores considerations and components of designing, conducting, and reporting qualitative research in this field, and also provides exemplars of recent empirical research in peace and conflict studies that employed qualitative methods. Scholars and researchers in peace and conflict studies and peace education face unique challenges in teaching, designing, and conducting qualitative research in these fields. This edited book discusses tips in designing qualitative studies in this area and for teaching emerging peace researchers best practices of qualitative inquiry. In addition, the book discusses some of the trends, challenges, and opportunities associated with research in peace and conflict studies and peace education. Written at a level appropriate for both graduate students and active researchers, the primary audience for this book is those teaching and learning about the application of qualitative methods to peace and conflict studies, as well as those conducting research in this field. There are currently approximately 230 graduate programs in peace and conflict studies. This book also provides a useful tool for researchers and students in other academic disciplines who are interested in qualitative research. Such disciplines might include education, sociology, criminology, gender studies, psychology, political science, and others.

Moments of Peace for the Morning Jul 03 2021 Inspirational Thoughts and Prayers to Begin Your Day Selected lines of Scripture motivate readers to use the gifts God has given. This Moments of Peace book will encourage readers of all ages.

Interpretations of Peace in History and Culture Dec 28 2020 This is the first volume in the trilogy 'Many Peaces' on transnational peace and elicitive conflict transformation. It proposes an innovative analysis of peace interpretations in global history and contemporary cultures of peace, the so-called five families of energetic, moral, modern, post-modern, and transnational.

Peace by Peaceful Means Dec 16 2019 Johan Galtung, one of the founders of modern peace studies, provides a wide-ranging panorama of the ideas, theories and assumptions on which the study of peace is based. The book is organized in four parts, each examining the one of the four major theoretical approaches to peace. The first part covers peace theory, exploring the epistemological assumptions of peace. In Part Two conflict theory is examined with an exploration of nonviolent and creative handling of conflict. Developmental theory is discussed in Part Three, exploring structural violence, particularly in the economic field, together with a consideration of the ways of overcoming that violence. The fourth part is devoted to civilization theory. This involves an

International Handbook of Peace and Reconciliation Sep 24 2020 How do ordinary people from different regions around the world define peace and reconciliation? What factors do they think are necessary for promoting reconciliation between countries?

Do they believe that individuals have a right to protest against war and in favor of peace? Do they believe that apologies can improve the chances of reconciliation? What do they think are the best ways for achieving peace? Does reasoning regarding the achievability of world peace vary by region? *International Handbook of Peace and Reconciliation*, a companion volume to the *International Handbook on War, Torture, and Terrorism*, examines and analyzes how people around the world think about justice, governmental apologies, the right to protest, the peace process, the justifiability of armed conflict, the possibility of world peace, and reconciliation. To address these questions, researchers from the Group on International Perspectives on Governmental Aggression and Peace (GIPGAP) administered the Personal and Institutional Rights to Aggression and Peace Survey (PAIRTAPS) to volunteers from over 40 countries representing the major regions of the world. The volume is organized such that the responses to the survey are summarized and analyzed by both by country and by theme. Integrative chapters provide an up-to-date overview of historical and current events relevant to peace and reconciliation and a grounded theory analysis of definitions of peace and reconciliation and of the role of apology in reconciliation. In addition to describing the major themes emerging from the responses in each region, the volume reports on some exploratory analyses addressing the extent to which we found differences in patterns of responding based on characteristics such as gender, military experience, and involvement in anti-war protest activity. *International Handbook on Peace and Reconciliation* allows ordinary citizens from around the world to voice their views on peace and related issues, and examines the context of these views. Thus, it offers researchers in political science, peace psychology, social psychology, social justice, and anthropology a comprehensive resource for a changing global landscape.

Peace in the Age of Chaos Oct 06 2021 While COVID-19 is reshaping our lives, this must-read book for 2021 provides some of the answers to our most pressing global challenges. Unless the world is basically peaceful, we will never get the trust, cooperation and inclusiveness to solve these issues, yet what creates peace is poorly understood. Working on an aid program in one of the most violent places in the world, North East Kivu in the DR Congo, philanthropist and business leader Steve Killelea asked himself, 'What are the most peaceful nations?' Unable to find an answer, he created the world's leading measure of peace, the Global Peace Index, which receives over 16 billion media impressions annually and has become the definitive go to index for heads of state. Steve Killelea then went on to establish world-renowned think tank, the Institute for Economics and Peace. Today its work is used by organisations such as the World Bank, United Nations and Organisation for Economic Co-operation and Development (OECD) and taught in thousands of university courses around the world. Peace in the Age of Chaos tells of Steve's personal journey to measure and understand peace. It explores the practical application of his work, which is gathering momentum at a rapid pace. In this time when we are faced with environmental, social and economic challenges, this book shows us a way forward where Positive Peace, described as creating the optimal environment for human potential to flourish, can lead to a paradigm shift in the ways societies can be managed, making them more resilient and better capable of adapting to their changing environments.

Visions of Peace Mar 19 2020 *Visions of Peace: Asia and the West* explores the diversity of past conceptualizations as well as the remarkable continuity in the hope for peace across global intellectual traditions. Current literature, prompted by September 11, predominantly focuses on the laws and ethics of just wars or modern ideals of peace. Asian and Western ideals of peace before the modern era have largely escaped scholarly attention. This book examines Western and Asian visions of peace that existed prior to c.1800 by bringing together experts from a variety of intellectual traditions. The historical survey ranges from ancient Greek thought, early Christianity and medieval scholasticism to Hinduism, classical Confucianism and Tokugawa Japanese learning, before illuminating unfamiliar aspects of peace visions in the European Enlightenment. Each chapter offers a particular case study and attempts to rehabilitate a 'forgotten' conception of peace and reclaim its contemporary relevance. Collectively they provide the conceptual resources to inspire more creative thinking towards a new vision of peace in the present. Students and specialists in international relations, peace studies, history, political theory, philosophy, and religious studies will find this book a valuable resource on diverse conceptions of peace.

Signs for Peace May 01 2021 Can one visualize peace? Are there signs, symbols, and images that present a positive image of peace as opposed to receiving their meanings in opposition to war? Over several years of research, the Design2context Institute has intensively examined the representation and representability of peace and has compiled a comprehensive collection of images. In order to include a number of historical, cultural, and political perspectives, the archival aspect is supplemented by workshops in crisis regions. The encyclopedia--which, as new sociopolitical situations continue to arise and call for new pictures, must inevitably remain incomplete--provides a broad overview of the iconography of peace, and is also intended to assist in gaining an understanding of the concept. This book represents a significant contribution to future discussions on the need and desire for peace in political and social life.

The Transformation of Peace Oct 26 2020 This book examines the transformation of the discourse and praxis of peace, from its early beginnings in the literature on war and power, to the development of intellectual and theoretical discourses of peace, contrasting this with the development of practical approaches to peace, and examining the intellectual and policy evolution regarding peace.

Toward a Theory of Peace Nov 26 2020 Military analyst, peace activist, teacher, and social theorist Randall Caroline Watson Forsberg (1943--2007) founded the Nuclear Freeze campaign and the Institute for Defense and Disarmament Studies. In *Toward a Theory of Peace*, completed in 1997 and published for the first time here, she delves into a vast literature in psychology, anthropology, archeology, sociology, and history to examine the ways in which changing moral beliefs came to stigmatize forms of

"socially sanctioned violence" such as human sacrifice, cannibalism, and slavery, eventually rendering them unacceptable. Could the same process work for war? Edited and with an introduction by political scientists Matthew Evangelista (Cornell University) and Neta C. Crawford (Boston University), both of whom worked with Forsberg.

Peace and Conflict Studies Jun 21 2020 Peace and Conflict Studies: A Reader is a comprehensive and intensive introduction to the key works in this growing field. Presenting a range of theories, methodologies, and approaches to understanding peace and to transforming conflict, this edited volume contains both classic and cutting-edge contemporary analyses. The text is divided into six general sections: PART I: Peace Studies, Peace Education, and Peace PART II: Peace Theories and Peace Movements PART III: The Meanings and Nature of Conflict PART IV: Conflict Analysis, Transformation, and Prevention PART V: Nonviolent Action and Political Change. PART VI: Building Institutions and Cultures of Peace With an extensive introduction, as well as recommendations for further reading and questions for the classroom, Peace and Conflict Studies: A Reader will be essential reading for students, teachers, and practitioners of peace and conflict studies, and conflict resolution. It is also highly recommended for students of peace operations, peacebuilding, sociology, international security and IR in general.

The Profit of Peace Aug 24 2020 It may seem a strange notion to give the private sector a role in conflict prevention or resolution, but multinational corporations (MNCs) do have some characteristics that make them good partners in a well-designed strategy for peace and stability. By focusing on their core competencies, their presence in a conflict region can help to provide prosperity for rebuilding society and its institutions, and improved respect for human rights. This book is not a song of praise for MNCs in general. There is a litany of examples of companies that feel no shame in profiting from conflicts by trading weapons or illegal resources, that prolong war by supporting one or other of the parties, or that are only in a war-torn country because the lawlessness suits them well. Even companies that refrain from such criminal activities cannot be envisaged as potential peace-builders if they profit unscrupulously from cheap labour or cheap subcontractors. Instead, this book is about corporations that are disposed to ethical, responsible entrepreneurship: companies that balance their desire for profit with compliance with international business and human rights standards and with a genuine investment in local workers, environmental protection, social development and stability. Worldwide about 60,000 MNCs work in over 70 conflict regions. They operate in regions where social unrest is harshly repressed, where outright fighting takes place, or where civil war has recently ended. Whatever the attitude of multinationals and whatever their area of business, they influence conflicts or are themselves influenced by conflicts. Even if they do not directly invest in or trade with a conflict region, they always risk being associated with those conflicts. The Profit of Peace examines how multinationals can use their core business competencies to promote peace and stability in conflict regions and what role – if any – business has in diplomacy. To investigate these questions the authors interviewed CEOs and high-level managers of multinationals working in 'challenging' countries such as Afghanistan, Burma and Rwanda. The interviewees provided extraordinarily candid views on both the practical and ethical issues that occur when operating under extremely volatile circumstances. The lessons learned by these managers make the book invaluable for any manager working for a large company in a region of unrest. Two vital elements emerged. Firstly, the ability to manage cultural differences is a key factor for success. Without a keen sense of the differences in management styles, in perceptions of ethics and morality, and in the values behind political opinions, every peace effort is doomed to fail. Secondly, ethically correct decisions do not necessarily lead to ethically correct results. It was not the objective of the authors to judge which of the parties in conflict regions are right or wrong. Rather, they wanted to find out what kind of attitude at the end of the day contributes most effectively to conflict prevention or stabilisation of a region. In other words, in this book corporate responsibility is measured by the results and not by the intentions. All of the CEOs interviewed for this book were well aware of the fact that their companies operating in conflict regions would always influence the conflict one way or another. This awareness in itself is quite extraordinary, and it shows that the indifferent comment "business is business" by and large belongs to a past era. Also extraordinary was that the managers allowed such a frank look into their sanctuary, since this candour makes them all the more vulnerable to criticism. Through the information from the interviewees and from other managers who have experience in conflict regions, the book outlines the ingredients for an approach that can best lead to a solution of conflicts and to greater stability. It will only be in the long run that we will be able to establish how successful the new profession of 'business diplomat' can be, but in the meantime the daily practices of MNCs show that they can work on 'the profit of peace'. This book is based on investigative journalism and contains many examples of best practices worldwide. It will be essential reading for practitioners, policy-makers and students involved with corporate social responsibility, peace studies, development studies and stakeholder management.

Your Stake in the Peace Feb 10 2022 Excerpt from Your Stake in the Peace: A Study Course on the Problems of the Future We Face, Based Upon the Reports of the Commission to Study the Organization of Peace First, some Of the bases on which any lasting peace must be secured are discussed. Then some Of the most urgent problems of the immediate post-war years are suggested. But most of the outline is taken up with consideration of how the United Nations can best speed victory, weather the storms Of the transition period and lay the foundations Of world order. There are suggested questions for study and pam phlet references at the end Of each section. Each section may be made the subject Of one or more periods Of discussion, depending on the number Of meetings your group plans to hold. At such meetings it is well to have a discussion leader, and to have assigned preliminary readings. A list Of book references supplements the suggested pamphlet references. A Directory Of Agencies from which pamphlets suggested as references can be Obtained will be found on page In the suggested readings, it is indicated from which agency each pam' About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. ASEAN Miracle Aug 16 2022 The Association of Southeast Asian Nations is a miracle. Why?In an era of growing cultural pessimism, many thoughtful individuals believe that different civilisations-especially Islam and the West-cannot live together in peace. The ten countries of ASEAN provide a thriving counter-example of civilizational co-existence. Here 625m people live together in peace. This miracle was delivered by ASEAN.In an era of growing economic pessimism, where many young people believe that their lives will get worse in coming decades, Southeast Asia bubbles with optimism. In an era where many thinkers predict rising geopolitical competition and tension, ASEAN regularly brings together all the world's great powers.Stories of peace are told less frequently than stories of conflict and war. ASEAN's imperfections make better headlines than its achievements. But in the hands of thinker and writer Kishore Mahbubani, the good news story is also a provocation and a challenge to the rest of the world.This excellent book explains, in clear and simple terms, how and why ASEAN has become one of the most successful regional organizations in the world. - George YeoA powerful and passionate account of how, against all odds, ASEAN transformed the region and why Asia and the world need it even more today. - Amitav Acharya

THE HERALD OF PEACE: A MONTHLY JOURNAL, PUBLISHED UNDER THE AUSPICES OF THE PEACE SOCIETY. VOL. XVII. - NEW SERIES. 1880-1881. Oct 14 2019

The Unintended Consequences of Peace Sep 17 2022 A rigorous global examination of the links between peaceful borders and illicit transnational flows of crime and terrorism.

Peace and Conflict Studies Dec 08 2021 The thoroughly updated Fourth Edition of the gold standard text explores historical and current topics in today's rapidly changing world to provide a comprehensive introduction to peace and conflict studies. Authors David P. Barash and Charles P. Webel offer an insightful analysis of 21st-century global affairs, including such timely topics as ISIS, the nature of violence and nonviolence, cutting-edge military technologies, the Terrorism and Global Peace Indexes, and the latest developments in Iran, North Korea, and Syria. Comprehensive yet written in a student-friendly and accessible style, the text represents a commitment to inspire readers to create a better world through an understanding of what has happened and what is happening, and therefore what is likely to take place in the future.

Wangari's Trees of Peace Nov 07 2021 This true story of Wangari Maathai, environmentalist and winner of the Nobel Peace Prize, is a shining example of how one woman's passion, vision, and determination inspired great change.

In defence of peace a world review Jan 09 2022

Community of Peace Apr 12 2022 Achieving peace is often thought about in terms of military operations or state negotiations. Yet, it also happens at the grassroots level where communities envision and create peace on their own. The San José de Apartadó Peace Community of small-scale farmers has not waited for a top-down peace treaty. Instead, they have actively resisted forced displacement and co-optation by guerrillas, army soldiers, and paramilitaries for two decades in Colombia's war-torn Urabá region. Based on ethnographic action research over a twelve-year period, Christopher Courtheyn illuminates the community's understandings of peace and territorial practices against ongoing assassinations and forced displacement. San José's peace through autonomy reflects an alternative to traditional modes of politics practiced through electoral representation and armed struggle. Courtheyn explores the meaning of peace and territory, while also interrogating the role of race in Colombia's war and the relationship between memory and peace. Amid the widespread violence of today's global crisis, Community of Peace illustrates San José's rupture from the logics of colonialism and capitalism through the construction of political solidarity and communal peace.

Peace Psychology in Asia Feb 16 2020 In recent years, peace psychology has grown from a utopian idea to a means of transforming societies worldwide. Yet at the same time peacebuilding enjoys global appeal, the diversity of nations and regions demands interventions reflecting local cultures and realities. Peace Psychology in Asia shows this process in action, emphasizing concepts and methods diverging from those common to the US and Europe. Using examples from China, India, Indonesia, the Philippines, and elsewhere in the region, chapter authors illuminate the complex social, political, and religious conditions that have fostered war, colonialism, dictatorships, and ethnic strife, and the equally intricate personal and collective psychologies that need to be developed to encourage reconciliation, forgiveness, justice, and community. Peace Psychology in Asia: Integrates psychology, history, political science, and local culture into concepts of peace and reconciliation. Highlights the indigenous aspects of peace psychology. Explains the critical relevance of local culture and history in peace work. Blends innovative theoretical material with empirical evidence supporting peace interventions. Balances its coverage among local, national, regional, and global contexts. Analyzes the potential of Asia as a model for world peace. As practice-driven as it is intellectually stimulating, Peace Psychology in Asia is vital reading for social and community psychologists, policy analysts, and researchers in psychology and sociology and international studies, including those looking to the region for ideas on peace work in non-Western countries.

A Bowl Full of Peace Jun 14 2022 A heartbreaking but essential perspective on war and survival.—starred, Kirkus Reviews In this deeply moving nonfiction picture book, award-winning author Caren Stelson brings Sachiko Yasui's story of surviving the atomic bombing of Nagasaki and her message of peace to a young audience. Sachiko's family home was about half a mile from where the atomic bomb fell on August 9, 1945. Her family experienced devastating loss. When they returned to the rubble where their home once stood, her father miraculously found their serving bowl fully intact. This delicate, green, leaf-shaped bowl—which once held their daily meals—now holds memories of the past and serves as a vessel of hope, peace, and new traditions for Sachiko and the surviving members of her family.

War, Peace, and Security Aug 04 2021 In the name of international and domestic security, billions of dollars are wasted on unproductive military spending in both developed and developing countries, when millions are starving and living without basic human needs. This book contains articles relating to military spending, military industrial establishments, and peace keeping.

The Fifth Book of Peace Dec 20 2022 A long time ago in China, there existed three Books of Peace that proved so threatening to the reigning powers that they had them burned. Many years later Maxine Hong Kingston wrote a Fourth Book of Peace, but it too was burned—in the catastrophic Berkeley-Oakland Hills fire of 1991, a fire that coincided with the death of her father. Now in this visionary and redemptive work, Kingston completes her interrupted labor, weaving fiction and memoir into a luminous meditation on war and peace, devastation and renewal.
