Emerging Viral Diseases Sep 24 2020 In the past half century, deadly disease outbreaks caused by novel viruses of animal origin - Nipah virus in Malaysia, Hendra virus in Australia, Hantavirus in the United States, Ebola virus in Africa, along with HIV (human immunodeficiency virus), several influenza subtypes, and the SARS (sudden acute respiratory syndrome) and MERS (Middle East respiratory syndrome) coronaviruses - have underscored the urgency of understanding factors influencing viral disease emergence and spread. *Emerging Viral Diseases* is the summary of a public workshop hosted in

March 2014 to examine factors driving the appearance, establishment, and spread of emerging, re-emerging and novel viral diseases; the global health and economic impacts of recently emerging and novel viral diseases in humans; and the scientific and policy approaches to improving domestic and international capacity to detect and respond to global outbreaks of infectious disease. This report is a record of the presentations and discussion of the event.

The Invisible Heart Jan 17 2020 A lively, unorthodox look at economics, business, and public policy told in the form of a novel. A love story that embraces the business and economic issues of the day? *The Invisible Heart* takes a provocative look at business, economics, and regulation through the eyes of Sam Gordon and Laura Silver, teachers at the exclusive Edwards School in Washington, D.C. Sam lives and breathes capitalism. He thinks that most government regulation is unnecessary or even harmful. He believes that success in business is a virtue. He believes that our humanity flourishes under economic freedom. Laura prefers Wordsworth to the Wall Street Journal. Where Sam sees victors, she sees victims. She wants the government to protect consumers and workers from the excesses of Sam's beloved marketplace. While Sam and Laura argue about how to make the world a better place, a parallel story unfolds across town. Erica Baldwin, the crusading head of a government watchdog agency, tries to bring Charles Krauss, a ruthless CEO, to justice. How are these two dramas connected? Why is Sam under threat of dismissal? Will Erica Baldwin find the evidence she needs? Can Laura love a man with an Adam Smith poster on his wall? The answers in *The Invisible Heart* give the reader a richer appreciation for how business and the marketplace transform our lives.

The Connected Apple Family Jan 29 2021 Most of us know how to use an iPhone for some

activities and a Mac for others, but the experience is much richer when our Apple products work together. Bypass the frustration of wrangling separate devices and tap into Apple's hardware and software ecosystem. From streaming movies across devices to sharing music, apps, and calendars between friends and family members, Apple's products are designed to work together, to your and your family's benefit. Jeff and Dan show you how to Set up Family Sharing and designate a Family Organizer Share music, movies, and apps among family members Manage passwords and stay safe, including tips on creating good passwords and using Touch ID Share essential information, including calendars, contacts, reminders, maps, and files Control a family member's screen remotely for easier longdistance troubleshooting Back up your irreplaceable data, whether it's on iOS devices (iCloud and iTunes) or your Mac (Time Machine) Be smart (and safe!) and create a bootable Mac backup Welcome the newest member of the Apple family, the Apple Watch, and learn how it will extend your current devices Packed with full-color images and step-by-step instructions, this invaluable guide will quickly help you get Apple devices and apps working to their full potential for your family.

Restructuring Public Transport Through Bus Rapid Transit Nov 26 2020 Bus Rapid Transit (BRT) is commonly discussed as an affordable way for cities to build sustainable rapid transport infrastructure. This book is the first to offer an in-depth analysis of BRT, examining the opportunities it presents along with the significant challenges cities face in its implementation. A wide range of contributors from both developed and developing countries bring expertise in fields ranging from engineering, planning and public policy to economics and urban design to provide a big picture assessment of BRT as part of a process for restructuring transit systems. Academically rigorous, based on five years of research conducted by the BRT Centre of Excellence in Chile, the book is written in an accessible style making it a valuable resource for academic researchers and postgraduate students as well as policy makers and practitioners.
