What Is a Dog? Nov 12 2019 "An informative, well-written book on the evolution of all canids, including the wild types (wolves, coyotes, jackals, and dingoes)...Recommended."—Choice Of the world's dogs, fewer than two hundred million are pets, living with humans who provide food, shelter, squeaky toys, and fashionable sweaters. But roaming the planet are four times as many dogs who are their own masters—neighborhood dogs, dump dogs, mountain dogs. They are dogs, not companions, and these dogs, like pigeons or squirrels, are highly adapted scavengers who have

evolved to fit particular niches in the vicinity of humans. This book presents an eye-opening analysis of the evolution and adaptations of these unleashed dogs and what they can reveal about the species as a whole. Exploring the natural history of these animals, canine behavior experts Raymond and Lorna Coppingers explain how the village dogs of Vietnam, India, Africa, and Mexico are strikingly similar. These feral dogs, argue the Coppingers, are in fact the truly archetypal dogs, nearly uniform in size and shape and incredibly self-sufficient. Drawing on nearly five decades of research, they show how dogs actually domesticated themselves in order to become such efficient scavengers of human refuse. The Coppingers also examine the behavioral characteristics that enable dogs to live successfully and to reproduce, unconstrained by humans, in environments that we ordinarily do not think of as dog friendly. A fascinating exploration of what it actually means, genetically and behaviorally, to be a dog, *What Is a Dog?* is likely to change the way beagle or bulldog owners reflect on their four-legged friends.

**Feminist Animal Studies** Apr 10 2022 This book explores human-animal relations and species-based domination at the intersection of feminism with critique of our domination and exploitation of nonhuman animals, in conversation with power dynamics around coloniality and race, class, sexuality and embodiment. The collection demonstrates the continued vital importance of feminism – conceptually and theoretically, methodologically and politically – to the development of animal studies. Feminism has made an incisive critique of the ways in which gender and other intersecting differences and inequalities are constitutive of our destructive, exploitative and often violent relationships with nonhuman worlds. An international group of scholars and activists showcase new work, revisiting and extending established debates while negotiating new paths. Amongst the issues addressed in this collection will be questions of animal being and animal rights, caring relations, the relationships between activism and theory, interspecies sexual violence, tension in the animal defence movement around body politics, gender politics and professionalisation, different spaces of gender and animal relations from social media to sexology, safe spaces and sanctuaries, spaces of home – both in times of ‘business-as-usual’ and in times of lockdown. This multidisciplinary volume will be essential reading to students and academics working in the fields of cultural studies, criminology, geography, history, law, philosophy, politics and sociology, with interest in gender, environmentalism and animal studies. The editors work in the School of Applied Social Sciences at De Montfort University, Leicester, UK, and share interests in gender and species violence, environmental harms, social justice matters and intersected inequalities.

It's an advanced version of the method that made the original book a hit in 14 languages. The mini habits remain easy to implement, but the reasoning and supporting strategies are more sophisticated. This is by necessity, as weight loss factors are many and varied. All the suggestions in the book are rooted in extensive biological and neuroscience research.

In this collection of success stories culled from the nearly 500 matches SSD has facilitated, Erin Stanton—and Susie—talk to dozens of adopters who've learned what a perfect companion a senior dog can be. From Rudy, the 12-year-old Puggle who's a calm and sturdy first dog for two young boys, to Rocky, the shy German Shepherd who now escorts his owner on daily walks around their ranch, Susie's Senior Dogs celebrates dogs from all walks of life. And of course, we'll hear Susie's own story woven throughout! Featuring both internet "dog stars" like Chloe Kardoggian and Wolfgang, as well as brand-new, never-told stories of senior dogs getting a new lease on life, Susie's Senior Dogs will keep readers smiling and tails wagging! This beautiful, upbeat book includes sidebars, Q&As, "Susie's Top Tips" and more, making it the perfect keepsake for animal lovers of all ages.
