Getting from Twenty to Thirty Aug 01 2021 The decade between ages twenty and thirty is one of the most pivotal in our lives. We leave home, we find jobs, we marry. We lose old friends and make new ones. The decisions we face during this time—from where we choose to live to what career we choose to follow—are often made with little more guidance than the advice of a well-meaning (but equally uninformed) friend. We need experience-based advice and empathetic counsel for dealing with our complex and changing world. That's what *Getting from Twenty to Thirty* is all about.

Divided into three sections—Breaking Away, Remaking Your World, and Arriving in One Piece—this invaluable book deals with everyday problems without losing sight of our loftier ideals and more permanent concerns. At a time when money is tight, jobs scarce, and our expectations those of a more privileged era, here is sound economic, social and psychological help for a new generation.

Swami Vivekananda said in one of his speeches that our country had always to wait for the birth of a great man. He leads us for some time and there is no continuity. A grand idea should be sufficient to thousands of people to take it up and follow it. But if that grand idea is not propogatedd by a great man, it has no chance of flourishing in our country. His dream was to reverse this trend.
