**Smugglers, Pirates, and Patriots** Jan 16 2020 After emerging victorious from their revolution against the British Empire, many North Americans associated commercial freedom with independence and republicanism. Optimistic about the liberation movements sweeping Latin America, they were particularly eager to disrupt the Portuguese Empire. Anticipating the establishment of a Brazilian republic that they assumed would give them commercial preference, they aimed to aid Brazilian independence through contraband, plunder, and revolution. In contrast to the British Empire's reaction to the American Revolution, Lisbon officials liberalized imperial trade when revolutionary fervor threatened the Portuguese Empire in the 1780s and 1790s. In 1808, to save the empire from Napoleon's army, the Portuguese court relocated to Rio de Janeiro and opened Brazilian ports to foreign commerce. By 1822, the year Brazil declared independence, it had become the undisputed center of U.S. trade with the Portuguese Empire. However, by that point, Brazilians tended to associate freer trade with the consolidation of monarchical power and imperial strength, and, by the end of the 1820s, it was clear that Brazilians would retain a monarchy despite their independence. *Smugglers, Pirates, and Patriots* delineates the differences between the British and Portuguese empires as they struggled with revolutionary tumult. It reveals how those differences led to turbulent transnational exchanges between the United States and Brazil as merchants, smugglers, rogue officials, slave traders, and pirates sought to trade outside legal confines. Tyson Reeder argues that although U.S. traders had forged their commerce with Brazil convinced that they could secure republican trade partners there, they were instead forced to reconcile their vision of the Americas as a haven for republics with the reality of a monarchy residing in the hemisphere. He shows that as twilight fell on the Age of Revolution, Brazil and the United States became fellow slave powers rather than fellow republics.

[The Buccaneers of the Caribbean](#) Jun 13 2022 The True Story of Piracy on the Spanish Main. This is the incredible true story of piracy in the Caribbean, proof positive that fact is stranger than fiction. From the moment the English established their first tiny colonies in the New World, semi-legal pirates took on the might of the Spanish Empire. The lure of Spanish gold was so strong that French and Dutch privateers soon joined them. Sometimes licensed by governments, but often not, desperate gangs of cut-throats dominated the Caribbean throughout the seventeenth century. Led by ruthless captains, they wrested many of the key islands from Spanish control, then fought each other for the region's strategic bases. Most notoriously, the 'brethren of the coast' established the pirate port of Tortuga, the infamous city of crime. From Piet Heyn's capture of the entire Spanish treasure fleet in 1628, to Henry Morgan's sack of Panama, this was the Age of the Buccaneers. This epic story continued up to the destruction of the pirates' lair of Port Royal by an earthquake in 1692 -- recognised at the time as the judgement of God. . . International treaties at the end of the century brought this dramatic era to a close, by which time the division of the Caribbean among European powers was complete. And a legend had been born.

[Piracy and the Origins of Universal Jurisdiction](#) Feb 09 2022 In *Piracy and the Origins of Universal Jurisdiction*, Mark Chadwick relates a colourful account of how and why piracy on the high seas came to be considered an international crime subject to the principle of universal jurisdiction, prosecutable by any State in any circumstances.

**Pirate Women** Dec 07 2021 In the first-ever *Seven Seas* history of the world's female buccaneers, *Pirate Women: The Princesses, Prostitutes, and Privateers Who Ruled the Seven Seas* tells the story of women, both real and legendary, who through the ages sailed alongside—and sometimes in command of—their male counterparts. These women came from all walks of life but had one thing in common: a desire for freedom. History has largely ignored these female swashbucklers, until now. Here are their stories, from ancient Norse princess Alfhild and warrior Rusla to Sayyida al-Hurra of the Barbary corsairs; from Grace O'Malley, who terrorized shipping operations around the British Isles during the reign of Queen Elizabeth I; to Cheng I Sao, who commanded a fleet of four hundred ships off China in the early nineteenth century. Author Laura Sook Duncombe also looks beyond the stories to the storytellers and mythmakers. What biases and agendas motivated them? What did they leave out? *Pirate Women* explores why and how these stories are told and passed down, and how history changes depending on who is recording it. It's the most comprehensive overview of women pirates in one volume and chock-full of swashbuckling adventures that pull these unique women from the shadows into the spotlight that they deserve.

**Women and English Piracy, 1540-1720** Apr 30 2021 Piracy was one of the most gendered criminal activities during the early modern period. As a form of maritime enterprise and organized criminality, it attracted thousands of male recruits whose venturing acquired a global dimension as piratical activity spread across the oceans and seas of the world. At the same time, piracy affected the lives of women in varied ways. Adopting a fresh approach to the subject, this study explores the relationships and contacts between women and pirates during a prolonged period of intense

and shifting enterprise. Drawing on a wide body of evidence and based on English and Anglo-American patterns of activity, it argues that the support of female receivers and maintainers was vital to the persistence of piracy around the British Isles at least until the early seventeenth century. The emergence of long-distance and globalized predation had far reaching consequences for female agency. Within colonial America, women continued to play a role in networks of support for mixed groups of pirates and sea rovers; at the same time, such groups of predators established contacts with women of varied backgrounds in the Caribbean and the Indian Ocean. As such, female agency formed part of the economic and social infrastructure which supported maritime enterprise of contested legality. But it co-existed with the victimisation of women by pirates, including the Barbary corsairs. As this study demonstrates, the interplay between agency and victimhood was manifest in a campaign of petitioning which challenged male perceptions of women's status as victims. Against this background, the book also examines the role of a small number of women pirates, including the lives of Mary Read and Ann Bonny, while addressing the broader issue of limited female recruitment into piracy. JOHN C. APPLEBY is Senior Lecturer in History at Liverpool Hope University.

**Raven Dawn** Jul 14 2022 Accused of kidnapping and murder, archaeologist Jake Lalonde gets the first terrifying clues to his cryptic Haida heritage when three children go missing from a small Vancouver Island town. As the evidence builds against him, and his story becomes wilder, he gets closer to the truth, a truth that involves an ancient cannibal demon. This novella is the prequel to the Raven Chronicles series and takes place before THE RAVEN'S POOL, WHITE RAVEN, RAVENSTONE, and RAVEN'S BLOOD.

**Caught!** Dec 15 2019 A humorous look at how famous people got caught, including Joan of Arc, Blackbeard, Al Capone, and more! From the award-winning team that brought you How They Croaked and How They Choked. Outlaw, assassin, art thief, and spy, these fourteen troublemakers and crooks--including Blackbeard the pirate, Typhoid Mary, and gangster Al Capone--have given the good guys a run for their money throughout the ages. Some were crooked, some were deadly, and some were merely out of line--but they all got Caught! as detailed in this fascinating and funny study of crime, culture, and forensic science. FEATURING HISTORY'S MOST WANTED: Joan of Arc, Sir Walter Raleigh, Caravaggio, Blackbeard, John Wilkes Booth, Jesse James, Billy the Kid, Mata Hari, Typhoid Mary, Rasputin, Vincenzo Peruggia (Mona Lisa thief), Bernard Kuehn (Pearl Harbor spy), Anna Anderson (Anastasia impersonator), and Al Capone

**Pirates and Lost Treasure of Coastal Maine** Jan 08 2022 "With a rugged coast and more than four thousand offshore islands, Maine's dark waters attracted sea raiders like Dixie Bull from the 1600s through colonial times. Pirate treasure still awaits discovery in Phippsburg and Machias, and pirate deceit prompted a massacre in ancient Fort Loyall. The infamous Captain Kidd may have prowled the waters off Deer Isle, while farther down the coast a woman and a bloodthirsty band of cutthroats lured ships to disaster at Isles of Shoals."--Supplied by publisher

**Crisis and Legitimacy in Atlantic American Narratives of Piracy** Jun 20 2020 This Open Access book, Crisis and Legitimacy in Atlantic American Narratives of Piracy: 1678-1865, examines literary and visual representations of piracy beginning with A.O. Exquemelin's 1678 *Buccaneers of America* and ending at the onset of the US-American Civil War. Examining both canonical and understudied texts—from Puritan sermons, James Fenimore Cooper's *The Red Rover*, and Herman Melville's "Benito Cereno" to the popular cross-dressing female pirate novelette Fanny Campbell, and satirical decorated Union envelopes, this book argues that piracy acted as a trope to negotiate ideas of legitimacy in the contexts of U.S. colonialism, nationalism, and expansionism. The readings demonstrate how pirates were invoked in transatlantic literary production at times when dominant conceptions of legitimacy, built upon categorizations of race, class, and gender, had come into crisis. As popular and mobile maritime outlaw figures, it is suggested, pirates asked questions about might and right at critical moments of Atlantic history.

**The Pirate Vortex** Jan 20 2023 Teen fencing champ, Elizabeth Latimer, is a girl of her times. Armed with the latest palm computer, she leaps into an oceanic vortex in pursuit of Daniel, an oh-so-awesome pirate. He knows the whereabouts of her missing marine archaeologist mom, but instead of reuniting them, he leads her into an impossible mission—to help the pirate Calico Jack Rackham rescue his girlfriend Anne Bonny. Anne is being held captive by the Governor of the Bahamas. Elizabeth is identical in looks to Anne, and when she emerges from the vortex onto Rackham's boat and tells him she's his descendant from the 21st century, he roars "witch!" In a world where men solve their problems by running a foot of steel into their enemies' guts, Elizabeth has only two weapons at her disposal—her fencing skill and her palm-sized computer with which she stays in touch with her sister Lulu. But the Universe has its rules—and she is tied by two of them. Number one, she can't reveal modern technology to the pirates. Number two, she can't kill anyone. If she breaks either of these rules, she'll change history and alter the future. Worst case scenario? Liz and her family will cease to exist!

**Calendar of State Papers, Domestic Series, of the Reign of Elizabeth** Sep 23 2020

**The Pirate Queen** Jul 22 2020 Extravagant, whimsical, and hot-tempered, Elizabeth was the epitome of power, both feared and admired by her enemies. Dubbed the "pirate queen" by the Vatican and Spain's Philip II, she employed a network of daring merchants, brazen adventurers, astronomer philosophers, and her stalwart Privy Council to anchor her throne—and in doing so, planted the seedlings of an empire that would ultimately cover two-fifths of the world. In *The Pirate Queen*, historian Susan Ronald offers a fresh look at Elizabeth I, relying on a wealth of historical sources and thousands of the queen's personal letters to tell the thrilling story of a visionary monarch and the swashbuckling mariners who terrorized the seas to amass great wealth for themselves and the Crown.

**The Pirate Empress** Mar 30 2021 Amid the wars and power struggles of Men and Demons, a Chinese Princess sacrifices herself and all she loves to

save the Empire from a scheming Fox Faerie, and keep the Cosmos in balance. With the scope of J.R.R. Tolkien's "The Lord of the Rings," and the evocativeness of Roger Zelazny's "Great Book of Amber," THE PIRATE EMPRESS is an epic saga of love and betrayal, honor and hope, war-and ultimate sacrifice in Ming Dynasty China.
