Read on to learn more! 92% of people who set goals for the New Year never achieve them. A New Year's resolution is one thing, but when you look at this in the context of a whole lifetime, that's a worrying figure. All too often we feel our destiny is out of our hands, but the truth is, whatever goals or dreams you have for your life, it is possible to achieve them. This might sound unrealistic, but if you break it down into its component parts, it's clear to see that it's possible to programme yourself for success. That might mean over-writing old programming. It might mean letting go of limiting beliefs. It might mean taking steps to improve your wellbeing. But the bottom line is: it's possible, and you can achieve it. In The Unlimiting Factor, you'll learn just how straightforward it is to reprogramme your mind and set yourself on course to achieve whatever your dreams may be. You'll discover: How the scientific notion of 'limiting factors' can be translated into 'limiting beliefs' -- and how you can take control of them Scientific explanations behind the power of positive thoughts and affirmations How to turn adversity into opportunity -- Every. Single. Time. The value of aligning your conscious and subconscious minds (intention matters) The 'opportunity cost mindset' -- what it is, and how you can use it to your advantage The secret to improving your emotional wellbeing by up to 25% The importance of developing expertise and financial mastery (and how to do it well) The #1 rule of investment according to Warren Buffet (what it is, how you can nurture it, and how to take it beyond monetary investment) Relatable scenarios to help you identify and nurture your purpose An understanding of 'SMART goals' and how they can help you to improve your life Why gratitude is more than just a trendy buzzword Practical exercises to help you implement each nugget of advice And much more. If you've ever felt resigned to your lot in life, convinced that your goals are nothing more than a pipe dream, think again. There is nothing in life that you simply have to live with: by reprogramming your mind and weeding out the limiting beliefs that are holding you back, you can set yourself on course to achieve whatever goal it is you have. This doesn't mean there won't be sacrifice, and it doesn't mean it will always be easy. But the point is, if you want something, you have the power to achieve it -- and this doesn't involve simply believing in yourself: it involves taking active, conscious steps to shape your destiny. These steps are easy to implement -- all you need is an understanding of what they are and how to incorporate them into your lifestyle. Take control of your future, and let go of your limitations. Contact: archismo1@yahoo.com In a novel as warm and embracing as a family kitchen, Barbara O'Neal explores the poignant, sometimes complex relationships between mothers and daughters—and the healing magic of homemade bread. Professional baker Ramona Gallagher is a master of an art that has sustained her through the most turbulent times, including a baby at fifteen and an endless family feud. But now Ramona's bakery threatens to crumble around her. Literally. She's one water-heater disaster away from losing her grandmother's rambling Victorian and everything she's worked so hard to build. When Ramona's soldier son-in-law is wounded in Afghanistan, her daughter, Sophia, races overseas to be at his side, leaving Ramona as the only suitable guardian for Sophia's thirteen-year-old stepdaughter, Katie. Heartbroken, Katie feels that she's being dumped again—this time on the doorstep of a woman out of practice with mothering. Ramona relies upon a special set of tools—patience, persistence, and the reliability of a good recipe—when rebellious Katie arrives. And as she relives her own history of difficult choices, Ramona shares her love of baking with the troubled girl. Slowly, Katie begins to find self-acceptance and a place to call home. And when a man from her past returns to offer a second chance at love, Ramona discovers that even the best recipe tastes better when you add time, care, and a few secret ingredients of your own. Dreams have always been of interest to the general population and have spun a number of different industries for centuries. Many artists have found that their creative muse has spoken to them in their dreams. Diverse composers as Beethoven, Bob Dylan, and Paul McCartney have all referenced experiences where their songs came to them while in the dream, or unconscious mind state. Bob Curran's many studies included reading about a metaphysician named Stuart Wilde, who suggested that everyone should immediately write down their dream each morning. And many psychologists and psychiatrists have written countless volumes as to how dreams function as a means of resolving conflicts or answering questions or dilemmas that have occurred during the waking, conscious hours of the day. It was with his background, some concrete examples of this "magic" that Bob began this work. Examples include how Michael Faraday, who invented the electromagnet, the basis of every electromagnetic device developed since that day, including computers, smart phones and space technology, was a nearly illiterate, uneducated farmer who knew nothing of science and yet "saw" the principles of the electromagnet in his dreams, rushed the concept to the scientists of his day, and was as astounded as they were when the bits and pieces of the details of his dream produced a revolutionary, workable invention, that was nothing less than a giant leap forward in the development of the whole of mankind's knowledge. It was with this background and this insight---all from others experiences--that Bob Curran decided to compile these short, short dream stories. They're definitely not what you call "Chapters" and so they're simply numbered rather than called "Chapters." Genre: Space opera. Comparison: Veronica Roth's "Carve

the Mark” meets Interstellar. For over 22 years now, since my earliest memories, I close my eyes and see the same dream over and over again. In front of me, there is a world with an endless dome sky, sprinkled with stars, gigantic green plants, and a multicolour buffet of herbs and fruit. It’s a world that’s warmed with the light of a golden sun, whose rays simply radiate warmth without killing anyone, almost as if from a fairytale. It’s a world filled with crystal-like water and uncontaminated oxygen. My visions are so bright that they outshine reality itself. Every time as I wake up in my capsule, it’s as if I return to the shadows, stepping away from that pure light. Going to a space station with the task of catching a dangerous spy, I couldn’t imagine that this would be the person to reveal the truth and essence of my dreams. The pulse which the old man Iza spotted transmits the sights, music, and even the language of an unexplored yet inhabited planet, exactly identical to what I envision. I always knew that a long road was waiting for me, but what exactly awaits on the other side of this mysterious star maze? Harness the transformative power of night dreams, half-awake dreams, and daydreams for healing, manifestation, and insight • Examines the types of dreams we have and how to remember and interpret them • Offers techniques for using night dreams and liminal dreams to improve our health and well-being and for manifesting our dreams in reality • Provides techniques for using daydreams for healing, insight, and creativity • Explains how dream techniques can be used to influence the behavior of people, things, and nature in the waking world Dreams can change our lives in profound and tangible ways. In this guide to mastering the art of dreaming, Serge Kahili King, Ph.D., explores techniques to harness the power of dreams for healing, transformation, and changing your experience of reality. Drawing on his analysis of more than 5,000 of his own dreams as well as those of students and clients from his almost 50 years of clinical work, King examines the types of night dreams we have, how to remember them better, how to make use of them to improve our health and well-being, and how to interpret them. He explores how dreams are understood in neuroscience and psychology, in Native American and Aboriginal cultures, in indigenous Senoi dream theory, and in India, Tibet, Hawaii, and Africa as well as ancient Egypt, Greece, and China. He examines the power of liminal dreams--those experienced in the half-awake state before or after sleep--for manifestation and self-understanding. He offers techniques for enhancing the dream experience for both night dreams and liminal dreams, along with practical methods to induce lucid (conscious) dreaming and to create healing thoughtforms. King then explores daydreams in depth, including fantasy, guided imagery, meditation, visions, and remote viewing and provides techniques for using daydreams for healing, insight, and creativity. He divides daydreaming into two categories, defining “active daydreaming” as the scripted dream in which you envision a goal happening and “passive daydreaming” as allowing ideas and memories to arise spontaneously from the depths of the mind. Reflecting on how dreamlike our daily experience is, King shows that each of us can use dreams as tools for seeing the world differently and influencing the behavior of people, things, and nature. From the critically acclaimed Little People, BIG DREAMS series, discover the life of Martin Luther King, Jr., the inspiring minister and civil rights activist. Little Martin grew up in a family of preachers: his dad was a preacher, his uncle was a preacher, his grandfather was a preacher...so maybe he’d become a great preacher too. One day, a friend invited him to play at his house. Martin was shocked when his mother wouldn’t let him in because he was black. That day he realized there was something terribly unfair going on. Martin believed that no one should remain silent and accept something if it's wrong. And he promised himself that—when he grew up—he’d fight injustice with the most powerful weapon of all: words. This moving book features stylish and quirky illustrations and extra facts at the back, including a biographical timeline with historical photos and a detailed profile of the inspiring activist’s life. DIDEROT’S DREAM By means of honouring the memory of Denis Diderot on the occasion of the third centenary of his birth in 2013, I wished to present this short novel, as if this was his unpublished manuscript which was discovered today, accompanied by a letter sent to his beloved Sophie Volland, wherein Diderot retells his dream. The letter is dated Paris, 20th September 1769, few days after Diderot actually wrote his work entitled: "The Dream of d'Alembert". With this imaginary literary discovery, I desired to bring back to life the contemporaneity of the eternal universality of thought of the great philosopher. When at last she comes before him, she implores: "Sheldon, come home!" Rosie Rosenzweig became that Jewish mother—but in real life, the story has a different ending. Instead of asking her Buddhist son, Ben, to come home, Rosie accepts his invitation to find out about Buddhism firsthand. Together they visit retreat centers in Europe and Asia and meet leading meditation masters who are Ben's gurus: Vietnamese teacher Thich Nhat Hanh and Tibetan lamas Tulku Urgyen Rinpoche and Chökyi Nyima Rinpoche. While struggling to come to terms with Ben's choice of a spiritual path so different from everything that she cherishes, Rosie finds that she is learning more about herself than she anticipated. The adventures of Rosie recounts take her from her Boston suburb to a Zen hermitage in France, an enclave of Tibetan Buddhists in Nepal, and finally to her own spiritual home in Jerusalem. Whether she is practicing mindfulness meditation, sharing a cup of tea with a Zen master, or worrying about bowing down to idols, Rosie is intent in her quest to find common ground between two ancient traditions, to deepen her understanding of her son, and to find a way to her own authentic experience of truth. Hers is a mission of peace that seeks to build a bridge of understanding between cultures and faiths while remaining true to her own Jewish identity.
